

# PHD IN MANAGEMENT

[sprott.carleton.ca](http://sprott.carleton.ca)

“The Sprott PhD gives you the knowledge to compete.”

## SHAPE YOUR FUTURE BASED ON YOUR RESEARCH INTERESTS

The Sprott PhD in Management produces graduates skilled in research who possess both a theoretical and practical understanding of the complex problems facing business and managers. Graduates typically pursue careers in university teaching and research, or in management consulting, advanced research and management in business and government. The program offers a number of interdisciplinary, issue-focused courses that provide a holistic perspective to defining and solving problems. Our approach involves recognizing the complicated nature of the major issues faced by today's managers. We teach the skills to solve such problems by taking a system-level view and by drawing resources and ideas from multiple functional areas.

The Organized Research Units of the Sprott School of Business serve as focal points for key areas of specialization:

- Centre for Information Technology, Organizations, and People
- Centre for Research and Education on Women and Work
- International Business Study Group
- Manufacturing Systems Centre
- Research Centre for Technology Management
- Sprott Centre for Social Enterprises

## CAPITAL ADVANTAGE

Carleton University is located in Ontario, Canada in the vibrant and beautiful capital city of Ottawa.

Ottawa is the center of the Federal Government with numerous businesses, major Canadian and international government agencies and embassies. The city is rich in cultural diversity and is home to the world's largest skating rink ([city.ottawa.on.ca](http://city.ottawa.on.ca)).

## SPECIAL FEATURES

Students are given the opportunity to gain advanced study in two functional areas of business through coursework, as well as integrative courses not commonly found in other PhD programs focusing on interconnections between disparate phenomena.

We offer progressive program options including full or part-time study in a variety of areas such as:

- Accounting
- Finance
- Information Systems
- International Business
- Management
- Marketing
- Production and Operations
