

## Professional Accounting Research Group

*François Brouard, DBA, FCPA, FCA*

March 2019

Building on the expertise and experience of the accounting group and Sprett faculty, the PARG currently has many members, including Sprett PhD candidates in accounting.

### **Mission**

The overarching goal of PARG is to advance the field of professional accounting through knowledge development and mobilization.

### **Objectives**

- advancing the accounting profession
  - by actively encouraging and supporting research and innovation
  - by producing high quality research
- creating thought leadership
  - by bringing together academia, industry, government, public accounting, and CPAs with meaningful collaborative initiatives
  - by collaborating in developing long-term mutually beneficial connections and partnerships

With a proper balance between theory and practice, PARG supports the Sprett School of Business' mission by facilitating a cross-disciplinary research environment to enable faculty and students to carry out leading-edge research on complex issues, and by working in partnership with organizations and institutions.
