Methods of Evaluation

Evaluations	Percentage weight of grade
Attendance and Participation	5%
After Class Assignments (individual)	20%
Midterm – 2 hours	30%
<u>Final – 3 hours</u>	<u>45%</u>
Total	100%

Attendance and Participation (5%)

Participation marks can be earned by being present and engaged in classes. This means you are actively listening, responding to verbal questions posed by your professor, taking notes, and working on the assigned in-class problems. Students that show up and are not actively engaged (e.g. headphones on, distracted in any way, using your phone, talking to others, being late to class, leaving early from class, not doing the activity asked of you, etc.) will not earn participation marks.

I understand that life happens, and you may not be able to make it to every class. I also understand there are rare times where you must join a class late or leave a class early. You may still receive 100% on participation even if you miss up to two classes.

After Class Assignments (20%):

The after-class assignments will be available on WileyPLUS through a link on Brightspace at least one week before the due dates. The assignments are due on the following dates at **11:59 pm (EST)**:

Assignment	Chapter Coverage	Due Date
1	13	Sep 9
2	14	Sep 16
3	15	Sep 23
4	16	Sep 30
5	17	Oct 7
6	19	Oct 14
7	20	Nov 4
8	18	Nov 18
9	21	Nov 25
10	22 and 23	Dec 7

Your final assignment grade will consist of the best 9 out of 10 assignments. This is to accommodate unpredictable obstacles (such as illness, family emergencies, etc.).

Late Assignments:

The assignment deadlines are set after the completion of related course material and therefore should be sufficient. These dates are established to keep you on track with the material.

To ensure fairness to all students and to keep you on track during the semester, late submissions (if permitted) will receive a penalty of **5% per day**.

Please email me **by noon of the assignment's due date** if you are unable to submit an assignment by the due date and provide a reason. **Assignment extensions are granted on a case-by-case basis.** Students can only submit one assignment late with penalty. After that no permission for late submission will be granted.

Midterm (30%) – In person, e-proctored on a laptop

The mid-term examination will be held on Wednesday, October 29, at 11:35 am during class time. The mid-term will cover chapters 13, 14, 15, 16, 17 and 19.

The midterm will be **written closed book, in person, on campus, using Excel, and will be e-proctored.** Students need to bring their laptops and to install and test CoMaS prior to the test date.

Deferred Midterm: The only valid reason for missing the mid-term is for medical reasons or death in the family. Any other reason (such as travel, etc...) will not be considered. In such circumstances the make-up mid-term will be held on **Monday, November 10 from 7:15 – 9:15 am EST on campus.**

If you miss the make-up midterm for any reason, your grade on the mid-term will be zero, i.e. there will be no make-up-make up mid-term and it is absolutely not possible to write a 75% final exam.

In order to be eligible to write the deferred mid-term exam, you must email me and provide proper documentation by end of day on November 6.

The mid-term will be marked by the teaching assistants and myself. We follow a rigorous quality control process that reasonably assures that the grade awarded on your mid-term is fair. However, no system is 100% error-free, so it is possible that you may wish to call into question a grade that has been awarded. If this happens, please email me to discuss the issue within seven calendar days following the date the grades were made available.

Final Exam (45%) - In person, e-proctored on a laptop

The final examination will be held in the regular examination period (Dec 8-20). The duration of the exam will be 3 hours. The final examination will cover the whole course. You need to obtain a minimum grade of 40% on the final exam to pass this course.

The final exam will be written closed book, in person, on campus, using Excel, and will be e-proctored. Students need to bring their laptops and install and test CoMaS prior to the test date.

Deferred Final Examinations:

If you wish to defer a **Formal Final Exam**, you – the student – must reach out to the registrar's office with the proper documentation prior to the deadline (please refer to <https://carleton.ca/registrar/deferral/> for dates). Once the request has been put through, your instructor will be notified for their approval. Your final exam will be formally scheduled.

Additional Information on Exams and e-Proctoring

e-Proctoring: The University's e-proctoring system (CoMaS) will be used to administer the midterm and the final exam. These exams are in-person, but we will still use this system as you will be writing using your laptops. Details about this system and your requirements will be laid out well before the exams so that you are ready. You can find more information at <https://carleton.ca/ses/e-proctoring/>.

Students need to bring their laptops and to install and test CoMaS prior to the test date.

The minimum computing requirements for e-proctoring service are as follows:

- Hardware: Laptop
- OS: Windows 10, Mac OS 10.14, Linux Ubuntu 18.04
- Internet Browser: Google Chrome, Mozilla Firefox, Apple Safari, or Microsoft Edge
- Internet connection
- Webcam

Note: Chromebooks, tablets (Android, iOS, Windows), and smartphones are not supported by CoMaS at this time. You must complete your exams using Windows-based or MacOS computers.

Cheat Sheet:

You will be allowed to bring in a 'cheat sheet' to the mid-term and final exam subject to the following parameters as it will appear on the first page of the exam:

Students are allowed a 'cheat' sheet. The sheet is limited to a sheet of letter sized paper. Only one side of the sheet can be used. There has to be a one inch margin all around and must be typed in 12 point Arial font. The cheat sheet has to be handed at the end of the exam.

If you bring in a cheat sheet that does not follow the above parameters, you will be unable to use it during the exam. A more thorough check of the cheat sheets will be held after the exam. If we find that you did not follow the parameters above, i.e. margins and font sizes, the penalty will amount to 10% of the exam grade.

Students' responsibilities with regards to deadlines

It is your responsibility to ensure that you meet (1) the assignments deadlines above, (2) the mid-term date and time, and (3) the final exam date and time. It's as easy as entering these in your calendar on your smart phone or paper agenda. When you register for this course, you are doing so on the assumption that you are fully available during the mid-term exam period and the final exam period (Dec 8-20). I will not accommodate any requests to write the midterm early or late.

Preparation and Participation:

How to do well in this course?

Before Class

1. **Before each class, briefly read the assigned chapter.** You do not need to understand everything at this stage. The purpose is to be introduced to the concepts and theoretical foundations in each chapter. As you read the chapters, take notes and bring them to class with you. If you have any questions about the content in the chapter, please raise them in class or email a TA or your professor or post them on Brightspace discussion boards.

During Class

2. **Attend class and actively participate.** You should come to class already aware of the material and ready to work through problems. During class we will briefly cover a summary of the theories and concepts in the chapter and will then focus on application. Most of the class time will be spent on problem solving. It is very important that you come to class ready to work. Class time is for active learning! You are expected to work through problems in class. If you are struggling with the work, please ask questions.

After Class

3. There are many exercises and problems at the end of each chapter. The solutions for a selected set of these problems are available on Brightspace. To perform well in this course, you must spend time answering these problems and checking the answers to test your understanding. To maximize your learning, you should make an honest attempt at the question before looking at the solution. **Simply reading a question and then turning to the solution right away is next to useless.** You will find that there is likely to be a direct correlation between the number of problems you prepare, your attendance and active engagement in class and your course grade.
4. **Complete the after class assignment on WileyPLUS.** These assignments are intended to assess your ability on the application of the materials covered in each chapter. Please do not wait until the due date to start the assignments. If you encounter any technical issues (or any other issues) last minute, you may not be able to get help to resolve the issues before the deadline.
