Grading Scheme

Country Group Presentation	25%	Due Jul 20
MNE Group Presentation	25%	Due Aug 14
Attendance and Participation	10%	Due July 6 – Aug 14
Final Exam	40%	Due Aug 21
TOTAL	100%	

Each component of your grade will be assigned a percentage score. Your final course grade will be a weighted average of each of these components.

- **Country Group Presentation**: Prepare and deliver a presentation on the attractiveness (or not) of a country from the point of view of an MNE. The duration of the presentation is to be determined in class depending on the number of groups involved. The goal of the presentation is to put together a compelling narrative about the country you have selected. In creating a compelling narrative, you may wish to address one or more of the following:
 - a) A brief description of the country and its economy, including key industries and products;
 - b) The key political and economic events that affected the currency over the last one hundred years or so;
 - c) Current key macroeconomic indicators (e.g., money supply growth, fiscal spending, deficits,
-

-
- balance of payments, national debt, GDP per capita, and productivity, quality of life and corruption perceptions);
 - d) Current fiscal and monetary policy;
 - e) Comment on how well the country has managed its currency;
 - f) Address whether or not the country is of interest to an MNE – e.g., as a source of supply, a market, a manufacturing location; and,
 - g) Concluding comments.

Please use the concepts presented in the textbook and in class to support your discussion. The deliverable is a soft copy of the presentation (PowerPoint slides plus Word report) to be uploaded to a Brightspace Assignments folder before class on the day of the presentation and a hard copy of the presentation slides to be handed in at the time of the presentation.

Your choice of country must receive the instructor's approval, mainly to avoid duplication by other groups.

- **MNE Group Presentation:** Prepare and deliver a presentation on the history, status and prospects of a multi-national enterprise. The duration of the presentations is to be determined in class depending on the number of groups involved. The presentation is to consider the following:
 - a) A brief description of the company with particular emphasis on the products or services it delivers and its comparative advantage – what it does well compared to its competitors;
 - b) The extent to which it is international – maps of locations work well here;
 - c) What motivated it to become a multinational enterprise – e.g., which comparative advantages was it seeking to exploit;
 - d) Challenges and difficulties the company has faced or currently faces because of its internationalization – political risk, etc.;
 - e) The company's response to controlling or managing its challenges;
 - f) Whether or not becoming an MNE has been beneficial for the company expressed in both strategic and financial terms; and,
 - g) Concluding comments.

The company must be foreign. For the purposes of this course, a company is foreign if its main share listing is not the TSX or an American exchange and its head office is outside Canada or the US. Please use the concepts presented in the textbook and in class to support your discussion. The deliverable is a soft copy of the presentation (PowerPoint slides plus Word report) to be uploaded to a Brightspace Assignments folder before class on the day of the presentation and a hard copy of the presentation slides to be handed in at the time of the presentation.

Your choice of MNE must receive the instructor's approval, mainly to avoid duplication by other groups.

General Comments on Presentations

The presentation marks will be divided approximately into 80% for content, and 20% for presentation skills. Your content mark will depend on the quality of your facts and explanations. The content report [Country and MNE] must be in 12-point font and between 12-15 pages (double-spaced) in length, not including any Appendices, which would be additional. Your presentation mark will depend on the quality of your presentation and your adherence to the following:

- a) Each group member must speak during the presentation.
 - b) The presentation must be completed within the specified time limit. If it isn't, you will be asked to end your presentation and your presentation mark may be adjusted downwards.
 - c) Your presentation mark will depend on the clarity of your overheads and comments, how convincing you are, and whether the story you tell is interesting.
-

- **Attendance and Participation:** It is highly encouraged that students actively participate in all classes by being adequately prepared (i.e., having attentively read and reflected on the text chapters and any other assigned readings/cases). Your contribution will be assessed based on regular class attendance, participation in discussions, asking questions and answering questions. The quality of contributions will be important.
- **Final Exam:** There will be a 3-hour final exam which, will be comprehensive, will be a mix of multiple-choice questions and problems, and will test your knowledge of the topics/chapters covered in the class. The final exam is closed-book and closed-notes. However, students will be allowed to use a financial calculator and a formulae sheet. Practice questions will be posted on Brightspace to help you as part of your exam preparations. Students who are unable to write the final examination because of illness or other circumstances beyond their control must reach out to the registrar's office with the proper documentation prior to the deadline (please refer to <https://carleton.ca/registrar/deferral/> for dates). Once the request has been put through, I will be notified for my approval. **Allowance will not be made for conflicting travel plans.**

Late Assignments:

To ensure fairness for all students, penalties will be applied to late assignments: Failure to submit an assignment on time will result in an initial penalty of five (5) percentage points, followed by an additional (2) percentage points per day thereafter. For example, an assignment that would normally merit a grade of 80% would receive a grade of 75% if submitted after the deadline on the due date, 73% if submitted the following day, and so on. Requests for extension will be considered in cases of illness, family emergency, or other exceptional circumstances.

Final Exam

There will be a 3-hour final exam, which will be comprehensive, will be a mix of multiple-choice questions and problems, and will test your knowledge of the topics/chapters covered in the class. The final exam is closed-book and closed-notes. However, students will be allowed to use a financial calculator and a formulae sheet.

e-Proctoring

If e-Proctoring is implemented for digital exams, please note that tests and examinations in this course will use a mandatory remote proctoring service provided by Scheduling and Examination Services. You can find more information at <https://carleton.ca/ses/e-proctoring/>.

Students are responsible for ensuring that the application is working properly on your computer during the exam. Failure to ensure proper functioning of CoMaS will constitute a violation of the exam rules and may be grounds for an allegation that you have violated the Academic Integrity Policy.

The minimum computing requirements for this service are as follows:

Hardware: Desktop, or Laptop

OS: Windows 10 or higher, Mac OS 10.14 or higher

Internet Browser: Google Chrome, Mozilla Firefox, Apple Safari, or Microsoft Edge

Internet Connection (High-Speed Internet Connection Recommended)

Webcam (HD resolution recommended)

Note: Tablets, Chromebooks, Smartphones and Windows-based tablets are not supported at this time.

Deferred final exams:

If you wish to defer a **Formal Final Exam**, you – the student – must reach out to the registrar’s office with the proper documentation prior to the deadline (please refer to <https://carleton.ca/registrar/deferral/> for dates). Once the request has been put through, your instructor will be notified for their approval.

Use of Generative Artificial Intelligence

This is a human-centered course. In this course, evaluation focuses on what you can do *without* AI assistance. While you are welcome to use AI tools to explore ideas, study, or clarify concepts, all submitted work must represent your independent thinking and original effort. Use AI for learning, not for producing graded submissions. Your understanding and reasoning—not AI output—will form the basis of assessment. Using AI for graded submissions constitutes an academic integrity violation.

Contribution to Program Learning Goals (MFin):

The purpose of this section is to explicitly address the connection between individual courses and program-level learning goals. We ask that you consider whether and how each of the five program-level learning goals is addressed in your course. For each learning goal, choose one of the following options. Indicate your choice by removing the check marks from the non-selected options:

Not Covered Learning goal is not addressed in the course, or addressed only minimally.

Introduced Course introduces content related to the learning goal but does not focus on it OR activities included in the course serve to cultivate this skill incidentally.

Taught but not Assessed Course contributes explicitly and meaningfully to student achievement of the learning goal but is not the point where competency is formally assessed.

Taught and Assessed Select this option if the course has been designated by the MBA CRC as the point where achievement of the learning goal will be assessed.

They provide you with opportunities to develop and enhance interpersonal, communication, leadership, followership, and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.
