Midterm and Final Examinations

Midterm Examination

The Midterm will cover Chapters 11 – 15, excluding 14. The exam will take place in-person during our regularly scheduled class on Monday, October 19th, 2026. The Midterm will be 90 minutes and will test both technical and conceptual aspects of the course.

In the event that you are unable to write the Midterm due to serious extenuating circumstances (such as a death in your immediate family, severe illness, etc.), you must provide appropriate supporting documentation within 7 calendar days. Should your request be approved, you will be permitted to write a deferred midterm – to be centrally scheduled by the Spratt administration team and will be held on Monday, November 2nd, 2026, at 7:15am.

Final Examination

The Final will be held during the centrally scheduled exam period as determined by Scheduling and Examination Services, between December 8th and 20th, 2025. The Final will be 180 minutes and will be **cumulative, with a focus on topics addressed after the Midterm.**

If you wish to defer the **Formal Final Exam**, you – the student – must reach out to the registrar's office with the proper documentation prior to the deadline (please refer to <https://carleton.ca/registrar/deferral/> for dates). Once the request has been put through, I will be notified for approval. Your deferred final exam will be formally scheduled.

E-proctoring:

If e-Proctoring is implemented for digital exams, please note that tests and examinations in this course will use a mandatory remote proctoring service provided by Scheduling and Examination Services. You can find more information at <https://carleton.ca/ses/e-proctoring/>.

Students are responsible for ensuring that the application is working properly on your computer during the exam. Failure to ensure proper functioning of CoMaS will constitute a violation of the exam rules and may be grounds for an allegation that you have violated the Academic Integrity Policy.

The minimum computing requirements for this service are as follows:

Hardware: Desktop, or Laptop

OS: Windows 10 or higher, Mac OS 10.14 or higher

Internet Browser: Google Chrome, Mozilla Firefox, Apple Safari, or Microsoft Edge

Internet Connection (High-Speed Internet Connection Recommended)

Webcam (HD resolution recommended)

Note: Tablets, Chromebooks, Smartphones and Windows-based tablets are not supported at this time.

Use of Generative Artificial Intelligence

This is a human-centered course. In this course, evaluation focuses on what you can do *without* AI assistance. While you are welcome to use AI tools to explore ideas, study, or clarify concepts, all submitted work must represent your independent thinking and original effort. Use AI for learning, not for producing graded submissions. Your understanding and reasoning—not AI output—will form the basis of assessment. Using AI for graded submissions constitutes an academic integrity violation.
