Course Description

Operations Management (OM) deals with the management of systems that provide goods and services to customers. This function exists in all industries, including manufacturing, retail distribution, and government services. The goal of OM is to provide *value* to the customer via the pursuit of *efficiency* and *effectiveness*. In a broader sense, OM is also a set of concepts and tools that can be useful in the *management* of the *operations* of any organisation. Since operations are at the core of any business (without it, there is no business!), OM is an essential area of management study.

The objective of this course is to provide an introduction to the field of OM. It will give a survey of the main OM issues and the key concepts & tools for dealing with them. It is intended to provide a basic exposure for those who will be specialising in other business areas, and to serve as a first step for those wishing to do further studies on this topic. Since OM in the real world is in frequent contact with other business functions such as marketing and finance, this course will draw on terminology and concepts from these fields.

Attendance

Attendance and Participation is integral part of this course. Attendance in the class will be recorded. The students need to attend at least 8 classes (excluding the first class) and sign the attendance sheet in order to get full attendance points (10% of the total grade).

Grading

Attendance	10%
Final Exam	45%
Quiz 1	15%
Quiz 2	15%
Quiz 3	<u>15%</u>
	100%

Participation Bonus

The students are encouraged to participate in discussion and solve multiple choice questions in class. For this class, the participation is conducted by using celly App. Students may download the app to their smartphones, or use the app's web site (<https://cel.ly>). A detailed instruction of using Celly could be found on the Culearn. Please let the instructor know if you do not have either a smartphone or a laptop.

The instructor assigns bonus points to the participation. For classroom discussion, the students will get 1 bonus point each time. For multiple choice questions, the first 10 students who submit right answer through Celly will receive 1 bonus point.

1 bonus point is equivalent to 0.5% of the final grade. You can use the bonus points to add a Maximum of 10% to your final grade.

Quiz

There will be three in-class quizzes given during the semester. The quizzes are close book. You should complete the quizzes by yourself.

Homework

There will be homework given during the semester to enable each student to practice the techniques and tools being taught. For each chapter, homework is given at the last slide for the chapter (which could be found on the course CULearn). The students do not need to turn in their homework. The solutions of the homework are available on the course CULearn.

Exams

For the Quiz and the Final exam, only suitable calculator is the *Texas Instruments BA II Plus*.

No deferred examination will be given, except for documented and acceptable reasons as defined by the university regulations. In such case, the deferred mid-term examination may include additional topics and must take place within two weeks after the mid-term scheduled date. Failure to meet this requirement will lead to a mark of zero or a withdrawal from the course. The Registrar's Office will determine the student's eligibility for a deferred final examination. This request must be made at the Registrar's Office within five (5) days of the exam. However, students who do not obtain at least 50% average on their term work for the course (i.e. mid-term, and quizzes combined) may be refused by the instructor the privilege of obtaining a deferred final examination. In such case, a FND grade will be assigned to the student. For the exams, students are advised that exam papers (mid-term or final) will not be returned back to them after being marked. They will be available for consultation only at the instructor's office.

Requests for Academic Accommodations

Academic Accommodations for Students with Disabilities

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your **Letter of Accommodation** at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (*if applicable*). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (*if applicable*).

- The deadlines for contacting the Paul Menton Centre regarding accommodation for final exams for December 2016 exam period is November 11, 2016.

For Religious Obligations:

Students requesting academic accommodation on the basis of religious obligation should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton's Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance.

For Pregnancy:

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

Academic Integrity

Violations of academic integrity are a serious academic offence. Violations of academic integrity – presenting another’s ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student – weaken the quality of the degree and will not be tolerated. Penalties may include expulsion; suspension from all studies at Carleton; suspension from full-time studies; a refusal of permission to continue or to register in a specific degree program; academic probation; and a grade of Failure in the course, amongst others. Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy which is available, along with resources for compliance at <http://carleton.ca/studentaffairs/academic-integrity>.
