Course meets: Thursdays Time: 14:35 - 17:25 Building: Tory Building Room: 240

Project Management
Identification, selection, initiation, and organization of projects; risk assessment; project scheduling, performance monitoring and control, and termination. Emphases on foundations, principles and supporting techniques.
Precludes additional credit for BUSI 4308
Prerequisite(s): third-year standing, BUSI 2301 and STAT 2606.

Course Description and Objectives:
The past decades have been marked by an increasingly use of projects as means for organizations, whether private or public, large or small, for profit or not for profit, to achieve their strategic and operational goals. The future promises an increase in the importance and the roles of projects and project management. Some of drivers behind this increase include the growing demand for a broad range of goods and services, the increased customer focus, the increased worldwide competition, the compression of product lifecycles, the knowledge explosion, the threat of global warming, the change in the supply chain structures, the increasingly pressures to update information technologies and communications systems, the escalation in global trade, the increased needs for poverty reduction/alleviation and improving living standards of people in developing and emerging countries, etc. This course is designed to convey the principles, tools, techniques and methods employed in order to be effective in managing projects and leading the people responsible for executing the tasks that comprise the project. Topics explored include leadership dimensions, project selection, project initiation, project organization, risk assessment, project planning, project budgeting, project scheduling, resource allocation, project monitoring and control, and project evaluation and closure. Project management software, like Microsoft Project Management, will also be introduced and used. The material is organized to enable both technical and non-technical
participants to appreciate the value offered by a variety of management practices and planning tools as means for administering, directing, and coordinating projects.

Upon completion of this course, students should be able to:

a) Recognize the role of projects in supporting organizational strategy.
b) Develop an understanding of the roles a project manager must balance in order to effectively deliver project results, offer vision and direction to a team, manage the expectations of multiple stakeholders, and motivate participants.
c) Develop in-depth knowledge in (1) managing the overall schedule to ensure that a project is completed on time and within budget; (2) identifying, tracking, managing and resolving project issues; (3) proactively communicating project information to all stakeholders; and (4) identifying, responding to and managing project risk.
d) Evaluate project performance based on a balanced set of key performance indicators.
e) Execute an effective project closure.

Reading (s)/Textbook (s):

Required textbook

1. Required textbook

(a) Larson, E. W., Gray, C. F. (2014): Project management – the managerial approach, sixth edition, McGraw-Hill, 686 pages. This textbook is available for purchase through the university bookstore or through the publisher e-store (see the weblink on CuLearn).

(b) Stevenson W. J., Ozgur C., and Nsakanda A. L.: An Introduction to Management Science With Spreadsheets, 1st Canadian edition, McGraw-Hill Ryerson, 2009 (Hereafter SON). This text is recommended, but only few chapters or its parts are required (chapters 2, 9, 10, and 13). These chapters are available for purchase at https://create.mcgraw-hill.com/shop/. They are provided to supplement some of the technical concepts that will be briefly discussed in class.

Please note that at least one copy of each textbook will be on reserve at the Library.

Other references

The following books will be used as references:

2. **Class notes and readings**

Instructor’s lecture notes will be available for download on the course website (see CuLearn). MSProject 2010 will be used as a learning aid for planning, scheduling, and tracking project activities. A copy of the software is free for download through CU msdn academic alliance. To avoid delays, it is recommended that you complete this download the first week of classes. If you have issues downloaded the program, please contact Carleton University’s Help Desk.

**Course Requirements & Methods of Evaluation:**

The course evaluation will be based on four main activities: assignments, in-class exercises (including a project simulation exercise), a project risk management exercise and exams. The weighting of each activity is as follows:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Assignments (3 equally marked)</td>
<td>30%</td>
</tr>
<tr>
<td>2. Project risk management process exercise</td>
<td>5%</td>
</tr>
<tr>
<td>3. Exams (2)</td>
<td></td>
</tr>
<tr>
<td>Midterm examination</td>
<td>25%</td>
</tr>
<tr>
<td>Final examination</td>
<td>40%</td>
</tr>
<tr>
<td>TOTAL</td>
<td>100%</td>
</tr>
</tbody>
</table>

The requirement for Satisfactory In-term Performance is set at a weighted average of 50% of all exams (i.e., midterm and final), not each. An Unsatisfactory In-term Performance will lead to failure with a grade of FND (regardless of the performance in other evaluations activities, such as assignments, project risk management process exercise, and in-class attendance and participation).

1. **Assignments (30%)**

   Homework assignments to be done in groups up to 4 students will be posted on the course web site on the dates to be announced on the course news page. They are due at the start of the class on the date specified. The penalty for late homework is 20% per day (every 24 hours from the day and time the assignment is due). Assignments that are not professionally presented, i.e., cannot be read without undue effort, will lose marks. The instructor will not be responsible for a homework submitted through emails. Students should make arrangements to have a hard copy of their homework submitted in time if they are not able to make it to class on the day the homework is due. Unless otherwise stated, no collaboration between student groups is allowed for homework, although discussions are encouraged.

2. **Project risk management process exercise (5%)**

   Students in groups up to 4 will be assigned a project scope statement and will be required to identify the potential risks associated with the project, perform a risk assessment to analyze identified risks, and develop a risk response matrix that outlines how to deal with each risk. The date of this activity will be announced in class.
3. Examination (65%)
There are 2 in-class exams (including the final). All exams are closed book, closed-notes. The test questions will come from the text, homework assignments, in-class hands-on exercises, lecture notes and may consist of multiple-choice, essay questions, mini-case analysis, or problems. The mid-term exam is scheduled on Saturday, March 4th with a Start Time of either 9 am to noon or 1 pm to 3 pm depending on room availability (room TBA). The university will establish and announce the date for the final exam. This exam will be cumulative. No make-up will be given for missed exams, except for documented and acceptable emergencies (as defined by university standard). A deferred mid-term examination may include additional topics and must take place within two weeks after the mid-term scheduled date. Failure to meet this requirement will lead to a mark of zero. Students are advised that exam papers (mid-term or final) will not be returned back to them after being marked. They will only be available for consultation at the instructor’s office.

G. CONDUCT

Professional conduct is built upon the idea of mutual respect. Such conduct entails (but is not necessarily limited to):

- **Attending the class.**
  Each class benefits from the attendance and participation of all participants. Class attendance is mandatory. The participation grade will be affected by absences. If any circumstances prevent attendance to the class, the participant is responsible for all materials discussed, handouts distributed, assignments covered, and announcements made.

- **Arriving on time.**
  Late arrivals are disruptive and show disrespect to those who are on time. Late arrivals are not allowed.

- **Minimizing disruptions.**
  Participants are not allowed to leave and re-enter the class. All cell phones and electronic communication devices must be turned off during class. If an emergency situation requires keeping the cell phone turned on, it must be set in the silent mode and it is advised that the instructor be informed prior to the class starting. Participants should also avoid engaging in side conversations after class has begun.

- **Focusing on the class.**
  Participants are not allowed to use laptops or hand-held devices for other tasks than notes taking while in class. Activities such as net surfing, and answering emails are very disruptive both to neighbors and to the entire class.

- **Being prepared for class.**
  Participants must be ready to discuss any assigned readings and to answer any assigned questions.

- **Respect.**
  Participants should act respectfully toward all class participants.

*EVERY EFFORT HAS BEEN MADE TO MAKE THE SCHEDULE AS COMPLETE AS POSSIBLE, BUT THERE MAY BE OCCASIONS WHERE CHANGES ARE REQUIRED. THE INSTRUCTOR WILL ANNOUNCE ANY DEVIATIONS FROM THE COURSE OUTLINE IN CLASS.*
Course Sharing Websites
Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s).

Required calculator in BUSI course examinations
If you are purchasing a calculator, we recommend any one of the following options: Texas Instruments BA II Plus (including Pro Model), Hewlett Packard HP 12C (including Platinum model), Staples Financial Calculator, Sharp EL-738C & Hewlett Packard HP 10bII

Group work
The Sprott School of Business encourages group assignments in the school for several reasons. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, follower-ship and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

In accordance with the Carleton University Undergraduate Calendar (p 34), the letter grades assigned in this course will have the following percentage equivalents:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>90-100</td>
</tr>
<tr>
<td>A</td>
<td>85-89</td>
</tr>
<tr>

Academic Regulations, Accommodations, Etc.
University rules regarding registration, withdrawal, appealing marks, and most anything else you might need to know can be found on the university’s website, here: http://calendar.carleton.ca/undergrad/regulations/academicregulationsoftheuniversity/
Requests for Academic Accommodations

For Students with Disabilities:

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). Requests made within two weeks will be reviewed on a case-by-case basis. After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website (www.carleton.ca/pmc) for the deadline to request accommodations for the formally-scheduled exam (if applicable).

For Religious Obligations:

Students requesting academic accommodation on the basis of religious obligation should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students and instructors can confirm accommodation eligibility of a religious event or practice by referring to the Equity Services website (http://carleton.ca/equity/accommodation/religious-observances/) for a list of holy days and Carleton's Academic Accommodation policies. If there are any questions on the part of the student or instructor, they can be directed to an Equity Services Advisor in the Equity Services Department for assistance.

For Pregnancy:

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

Academic Integrity

Violations of academic integrity are a serious academic offence. Violations of academic integrity – presenting another’s ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student – weaken the quality of the degree and will not be tolerated. Penalties may include; a grade of Failure in the submitted work and/or course; academic probation; a refusal of
permission to continue or to register in a specific degree program; suspension from full-
time studies; suspension from all studies at Carleton; expulsion from Carleton, amongst
others. Students are expected to familiarize themselves with and follow the Carleton
University Student Academic Integrity Policy which is available, along with resources for
compliance at: http://carleton.ca/studentaffairs/academic-integrity.

Sprott Student Services
The Sprott student services office, located in 710 Dunton Tower, offers academic
advising, study skills advising, and overall academic success support. If you’re having a
difficult time with this course or others, or just need some guidance on how to
successfully complete your Sprott degree, please drop in any weekday between 8:30am
and 4:30pm. Our advisors are happy to discuss grades, course selection, tutoring,
concentrations, and will ensure that you get connected with the resources you need to
succeed! http://sprott.carleton.ca/students/undergraduate/learning-support/
Be in the know with what’s happening at Sprott: Follow @SprottStudents and find us on
Facebook SprottStudents Sprott.

Assistance for Students:
Student Academic Success Centre (SASC): www.carleton.ca/sasc
Writing Tutorial Services: http://www1.carleton.ca/sasc/writing-tutorial-service/
Peer Assisted Study Sessions (PASS): www.carleton.ca/sasc/peer-assisted-study-sessions

Important Information:
- Students must always retain a hard copy of all work that is submitted.
- All final grades are subject to the Dean’s approval.
- Please note that you will be able to link your CONNECT (MyCarleton) account to
  other non-CONNECT accounts and receive emails from us. However, for us to respond
to your emails, we need to see your full name, CU ID, and the email must be written
from your valid CONNECT address. Therefore, it would be easier to respond to your
inquiries if you would send all email from your connect account. If you do not have or
have yet to activate this account, you may wish to do so by visiting
https://portal.carleton.ca/
Important Dates and Deadlines – Winter 2017
Graduate, Undergraduate and Special Students

January 3
University reopens at 8:30 a.m.

January 5
Winter term classes begin.

January 18
Last day for registration for winter term courses.
Last day to change courses or sections (including auditing) for winter term courses.
Graduate students who have not electronically submitted their final thesis copy to the
Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in Winter
2017 and must register for the Winter 2017 term.

January 20-22, 27-29
Fall-term deferred examinations will be held.

January 31
Last day for a fee adjustment when withdrawing from Winter term courses or the Winter
portion of two-term courses (financial withdrawal). Withdrawals after this date will
create no financial change to Winter term fees.

February 17
April examination schedule available online.

February 20
Statutory holiday, University closed.

February 20-24
Winter Break. Classes are suspended.

March 1
Last day for UHIP refund applications for International Students who will be graduating
this academic year.
Last day for receipt of applications from potential spring (June) graduates.
Last day for receipt of applications for admission to an undergraduate program for the
summer term.

March 10
Last day to request formal exam accommodations for December examinations to the Paul
Menton Centre for Students with Disabilities. Late requests will be considered on case-
by-case basis.
March 20
**Last day to pay any remaining balance on your Student Account** to avoid a hold on access to marks through Carleton Central and the release of transcripts and other official documents. An account balance may delay Summer 2017 course selection.

March 24
Last day for tests or examinations in courses below the 4000-level before the final examination period (see Examination Regulations in the Academic Regulations of the University section of this Calendar).

April 7
Winter term ends.
Last day of fall/winter and winter-term classes.
Last day for academic withdrawal from fall/winter and winter term courses.
Last day for handing in term work and the last day that can be specified by a course instructor as a due date for term work for fall/winter and winter-term courses.

April 10-25
Final examinations in winter term and fall/winter courses may be held. Examinations are normally held all 7 days of the week.

April 14
Statutory holiday, University closed.

April 25
All take home examinations are due on this day.

May 5
Graduate students who have not electronically submitted their final thesis copy to the Faculty of Graduate and Postdoctoral Affairs will not be eligible to graduate in Spring 2017 and must register for the Summer 2017 term.

May 17-28
Fall/winter and winter term deferred final examinations will be held.
