

BUSI 4000 B
ACCOUNTING THEORY
Winter 2014

PROFESSOR:

Dr. Hilary Becker

Office: 1012 DT, Tel. 520-2600, Ext. 3717

Office Hours: Tues and Wed 1-2PM and by Appointment

E-mail: hilary_becker@carleton.ca and via WebCT

WebCT: <http://webct.carleton.ca>

COURSE TIME :

Tuesdays, 08:35 – 11:25.

LOCATION:

St. Patrick's Building Rm: 303

PREREQUISITES:

BUSI 2002, BUSI 2504, and one of ECON 2202 or STAT 2607 (with a grade of C- or higher in each)

The School of Business enforces all prerequisites.

COURSE OVERVIEW AND OBJECTIVES:

This course focuses on the evolution of accounting theory and its importance for accounting practice and standard setting. Instead of being a practice-oriented professional course, the course focuses on understanding the theories underlying the generally accepted accounting principles. Major empirical evidence supporting such theories is reviewed, with emphasis placed on income measurement and current issues. In addition to gaining an understanding of the impact of theory and empirical research literature on accounting practice and standard setting, the students develop an ability to critically evaluate current and proposed accounting practices within a broad conceptual framework.

TEACHING METHODOLOGY:

Teaching methodology for this course encompasses assigned readings, brief lectures, discussions, and problem solving exercises and cases. Students are expected to read the assigned material, including the cases and discussion problems **before each class** and to come to class fully prepared to discuss them. Brief lectures are utilized to highlight and clarify key concepts, and example cases and applications are discussed in class to apply these concepts.

The primary role of the instructor in this course is to encourage and facilitate student learning by helping students understand and apply key concepts and by providing them with regular feedback on their progress. All lecture notes are available to students, and students have frequent opportunities to obtain feedback on the mastery of material through regular class discussions and graded class exercises, research assignments, and examinations. It should be emphasized, however, that diligent independent preparation for and active participation in class discussions are crucial to develop a thorough understanding of the course material and to perform well in the course.

EVALUATION METHODS:

Project Assignment - report	15%
Class Activities/Participation	10%
Mid-Term Examination	30%
Final Examination	<u>45%</u>
Total	<u>100%</u>

Project Assignment. The project assignment comprises a comprehensive written report examining a particular emerging issue and the process of getting into the CICA handbook, completed in groups of three or four. The report should be 10 – 12 pages in length, double spaced, excluding major tables, appendices, and preliminary matter, and be professional in its style and format. The reports are evaluated for both content and style. In writing the report, assume the role of independent management consultants analyzing the issues and implications of the topic for different stakeholders. (Note: As changes in accounting issues are fluid at the current time, the project assignment may change. Your instructor will advise you of any changes early in the course).

Class Activities/Participation. Relevant activities or exercises are conducted periodically in class, some of them in small groups, and may require brief written reports to be handed in. Please note that marks are not awarded for mere class attendance, but they require active participation in completing and discussing these assignments. Because of the participative nature of these activities, make-up assignments, or compensation for marks lost due to missed classes, are not provided for any reason. Suggested solutions to participative class assignments are discussed in class, but any material required to be handed in is not returned to students.

Mid-Term Examination. The mid-term examination (October 23 in-class) is approximately two hours in length and consists of short-answer objective questions, short essay questions, and problems requiring some interpretation and integration of material. The only valid reason for not writing the mid-term examination at the scheduled time is a medical condition, documented with

a medical certificate. Reasons such as conflicts with work or travel arrangements are not considered to be valid reasons.

If you must miss the mid-term exam due to verifiable illness (or, in rare cases, some other circumstances beyond your control) you may apply to shift the weight of the mid-term to the final exam by submitting a medical certificate or other verifiable documentation to me—the instructor—no later than five (5) calendar days after the midterm date. Please use the medical certificate form found at:
http://www.carleton.ca/registrar/forms/Med_Cert_Carleton_University.pdf

Final Examination. The final examination is comprehensive, covering the material of the entire course. It is three hours in length and consists of short-answer objective questions, short essay questions, and questions requiring interpretation, integration, and application of several concepts. A **minimum mark of 45 percent** must be obtained on the final examination in order to be eligible to pass the course.

For examination purposes, students are responsible for all material in the assigned readings, class exercises and activities, as well as for any additional material and interpretation provided by the instructor in class. Supplemental or grade-raising examinations are not available in this course.

Requests for deferred final examinations must be directed to the Office of Registerial Services for assessment. In order to be eligible to write a deferred examination, a student must have completed all term work with a minimum mark of 45 percent. If these conditions are not met, a grade of FND (failure with no deferral) will be assigned.

Required calculator in BUSI course examinations

If you are purchasing a calculator, we recommend any one of the following options: Texas Instruments BA II Plus (including Pro Model), Hewlett Packard HP 12C (including Platinum model), Staples Financial Calculator, Sharp EL-738C & Hewlett Packard HP 10bII

Group work

The Sprott School of Business encourages group assignments in the school for several reasons. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, follower-ship and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

Medical certificate

Please note that in all occasions that call for a medical certificate you must use or furnish the information demanded in the standard university form.

Requests for Academic Accommodations

Academic Accommodations for Students with Disabilities

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your **Letter of Accommodation** at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (*if applicable*). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (*if applicable*).

- The deadlines for contacting the Paul Menton Centre regarding accommodation for final exams for the December 2013 exam period is November 8, 2013 and for the April 2014 exam period is March 7, 2014.

For Religious Obligations:

Students requesting academic accommodation on the basis of religious obligation should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton's Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance.

For Pregnancy:

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student

must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

Academic Integrity

Violations of academic integrity are a serious academic offence. Violations of academic integrity – presenting another’s ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student – weaken the quality of the degree and will not be tolerated. Penalties may include expulsion; suspension from all studies at Carleton; suspension from full-time studies; a refusal of permission to continue or to register in a specific degree program; academic probation; and a grade of Failure in the course, amongst others. Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy which is available, along with resources for compliance at <http://www2.carleton.ca/sasc/advisingcentre/academic-integrity/>.

Important Information:

- Students must always retain a hard copy of all work that is submitted.
- All final grades are subject to the Dean’s approval.
- Please note that you will be able to link your CONNECT (MyCarleton) account to other non-CONNECT accounts and receive emails from us. However, for us to respond to your emails, we need to see your full name, CU ID, and the email must be written from your valid CONNECT address. Therefore, it would be easier to respond to your inquiries if you would send all email from your connect account.
