The School of Business enforces all prerequisites.

Course Calendar description from the 2018/2019 University calendar:

Evolution of accounting theory with emphasis on concepts of income and current issues.

Course Description and Objectives:

This course focuses on the evolution of accounting theory and its importance for accounting practice and standard setting. Instead of being a practice-oriented professional course, the course focuses on understanding the theories underlying the generally accepted accounting principles. Major empirical evidence supporting such theories is reviewed, with emphasis placed on income measurement and current issues. In addition to gaining an understanding of the impact of theory and empirical research literature on accounting practice and standard setting, the students develop an ability to critically evaluate current and proposed accounting practices within a broad conceptual framework.

Course Requirements & Methods of Evaluation:

Teaching methodology for this course encompasses assigned readings, brief lectures, discussions, and problem solving exercises and cases. Students are expected to read the assigned material, including the cases and discussion problems **before each class** and to come to class fully prepared to discuss them. Brief lectures are utilized to highlight and clarify key concepts, and example cases and applications are discussed in class to apply these concepts.

The primary role of the instructor in this course is to encourage and facilitate student learning by helping students understand and apply key concepts and by providing them with regular feedback on their progress. All lecture notes are available to students, and students have frequent opportunities to obtain feedback on the mastery of material through regular class discussions and graded class exercises, research assignments, and examinations. It should be emphasized, however, that diligent independent preparation for and active participation in class discussions are crucial to develop a thorough understanding of the course material and to perform well in the course.

EVALUATION METHODS:

Project Assignment - report	15%
Class Activities/Participation	10%
Mid-Term Examination	30%
Final Examination	<u>45%</u>
Total	<u>100%</u>

Project Assignment. The project assignment comprises a comprehensive written report examining a particular emerging issue and the process of getting into the CPA handbook, completed in groups of three or four. The report should be 10 – 12 pages in length, double spaced, excluding major tables, appendices, and preliminary matter, and be professional in its style and format. The reports are evaluated for both content and style. In writing the report, assume the role of independent management consultants analyzing the issues and implications of the topic for different stakeholders. (Note: As changes in accounting issues are fluid at the current time, the project assignment may change. Your instructor will advise you of any changes early in the course).

Class Activities/Participation. Relevant activities or exercises are conducted periodically in class, some of them in small groups, and may require brief written reports to be handed in. Please note that marks are not awarded for mere class attendance, but they require active participation in completing and discussing these assignments. Because of the participative nature of these activities, make-up assignments, or compensation for marks lost due to missed classes, are not provided for any reason. Suggested solutions to participative class assignments are discussed in class, but any material required to be handed in is not returned to students.

Mid-Term Examination. The mid-term examination (October 30 in-class) is approximately two hours in length and consists of short-answer objective questions, short

essay questions, and problems requiring some interpretation and integration of material. The only valid reason for not writing the mid-term examination at the scheduled time is a medical condition, documented with a medical certificate. Reasons such as conflicts with work or travel arrangements are not considered to be valid reasons.

If you must miss the mid-term exam due to verifiable illness (or, in rare cases, some other circumstances beyond your control) you may apply to shift the weight of the to the final exam or write a make up exam by submitting a medical certificate or other verifiable documentation to me—the instructor—no later than five (5) calendar days after the midterm date. Please use the medical certificate form found at: http://www.carleton.ca/registrar/forms/Med_Cert_Carleton_University.pdf

Final Examination. The final examination is comprehensive, covering the material of the entire course. It is three hours in length and consists of short-answer objective questions, short essay questions, and questions requiring interpretation, integration, and application of several concepts. A **minimum mark of 45 percent** must be obtained on the final examination in order to be eligible to pass the course.

For examination purposes, students are responsible for all material in the assigned readings, class exercises and activities, as well as for any additional material and interpretation provided by the instructor in class. Supplemental or grade-raising examinations are not available in this course.

Requests for deferred final examinations must be directed to the Office of Registerial Services for assessment.

Group work

The Sprott School of Business encourages group assignments in the school for several reasons. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, follower-ship and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

In accordance with the Carleton University Undergraduate Calendar (p 34), the letter grades assigned in this course will have the following percentage equivalents:

A+ = 90-100	B+ = 77-79	C+ = 67-69	D+ = 57-59
A = 85-89	B = 73-76	C = 63-66	D = 53-56
