The ACCT 5002 course focuses on the basic managerial accounting concepts and tools that aid internal managers in decision making to make optimal

financial decisions. Major topics addressed in this course include: cost and cost behaviour, short and long-term decision making, activity-based cost systems, budgeting and control issues. The ability to apply the concepts learned in real world cases and working in groups is also emphasized in this course.

- (1) A general understanding of the nature of management accounting, its concepts and principles.
- (2) An understanding of the need for accounting information for decisions.
- (3) Skills to understand and to critically analyze and interpret management accounting information.
- (4) A general understanding of the role of performance measurement and the control function in organizations.

Grading Scheme

ACCT 5002

| | |
|---|-----|
| Participation | 10% |
| Mini-Team Assignment (1 assignments – 2 students/group) | 20% |
| Hand-in Group Case – (1 case – 4 students/group) | 25% |
| Final Exam | 45% |

Each component of your grade will be assigned a percentage score. Your final course grade will be a weighted average of each of these components.

In the ACCT 5002 course, there will be one individual/mini-group assignment – this can be done in groups of 2 and one group case designed to integrate the material from the course.

The group case is to be submitted in groups of no more than 4 students (max), 3 students (min). The assignments/cases are to be submitted to the Brightspace dropbox by the due date posted in Brightspace.

Late assignments/cases will not be accepted, unless a request for extension has been granted by the instructor and will be considered for cases of illness, family emergency or other exceptional circumstances.

Participation is critical in a course like this. To gain a full understanding of the material, students are expected to participate in each class. Learning outcomes are enhanced when students share experiences and knowledge.

EXAMINATION

The final exam will encompass all the material from ACCT 5002.

Missed assignments and deferred examination:

Missed assignments:

The only valid excuse for missing an assignment is for medical reasons or death in your family and must be documented with a medical certificate or death certificate. You are required to provide your documentation within one week. Any other reason (such as travel, etc....) cannot be considered. In such circumstances there will be no make-up assignment.

Deferred Final Examination:

Students unable to write a final examination because of illness or other circumstances beyond their control must contact the instructor in writing to request a deferred exam. Permission may be granted when the absence is supported by a medical certificate and or appropriate document/s to support the reason for the deferral. Deferred exams are not granted for students who have made travel arrangements that conflict with examination schedule.

METHOD OF INSTRUCTION

Class sessions entail a mixture of lecture, case study, problem analysis, and class discussion. Lectures emphasize major topics and concepts. It requires active learning, which means that the student must take responsibility for

the learning that takes place. You are encouraged to ask questions and to stimulate discussion on topics that you have difficulty understanding.

How to do well in this course:

COME TO CLASS, COME TO TUTORIALS AND PRACTICE, PRACTICE, PRACTICE...

To perform well in this course, you must spend time answering extra problems and checking the answers to test their understanding. To maximize your learning, you should make an honest attempt at the question before peeking at the solution. Simply reading a question and then turning to the solution right away is next to useless. You will find that there is likely to be a direct correlation between the number of problems you prepare, your attendance in class and your course grade.

Class Etiquette

1. Late arrival should be an exception. When necessary, sit on entering side; do not disturb the class.
2. Early departure should be an exception also.
3. Early preparation for departure - please don't.
4. Talking - with everyone or with no one.
5. Cell phones and other electronic noises....off.

Group Work:

The Sprott School of Business encourages group assignments. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, followership and other group skills. Group assignments are also an effective way to learn integrative skills for putting together a complex task. Your professor may assign one or more group tasks, assignments, or projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

Peer Evaluation for Group Work

You will be asked to assess the contribution of your fellow group members. This information will be used when assigning the grade for the group and team assignments. The procedure is as follows: Each student should take 100 points and allocate those points to the various members of the group (including him or herself) to reflect the contributions made by each member. For instance, if there are four members in a group and everyone contributed equally, each individual would receive 25 points. Conversely, if an individual contributed relatively little, the remaining group members might allocate few points to that member. To ensure that these peer evaluation scores are reasonable and free from personal bias, you will be asked to provide a detailed written explanation for your point allocation.

Letter Grades:

In accordance with the Carleton University Undergraduate Calendar (p 34), the letter grades assigned in this course will have the following percentage equivalents:
