Course Description and Objectives:

In this increasingly complex business environment, senior executives in business and public sector organizations require knowledge of financial management. This course builds upon and integrates knowledge previously gained in finance courses taken in an undergraduate program and in the MAcc program. It dives deeper into technical and complex issues, helps develop professional judgement, and focuses on the ability to integrate the various competencies together. It hones the skills required to be a professional accountant.

On successful completion of this course the participant will have mastered the fundamental financial concepts and techniques and acquired the ability to apply the techniques to financial problem-solving and decision-making in a professional manner.

Please provide a copy of your slides to the instructor prior to your presentation. A separate handout on the structure of cases will be provided on Brightspace.

You can access the cases by following this link: <https://hbsp.harvard.edu/coursepacks/830137>

Late Assignments Policy:

The assignment deadlines are at least one week after the completion of related course material (sometimes more) and as such, the time for the assignment should be sufficient. Yet, sometimes, despite your best efforts, and for good reasons, you may not be able to meet the deadlines. You have two days of grace period that you can apply to missed assignment deadlines. For example, a single assignment may be two days late or two assignments may each be one day late with no penalty. No reason required. No questions asked. That said, I need an email by the deadline indicating you will be late in submitting your assignment. Once the two days have been used, no further lateness will be accepted and any late submissions at that stage will not be accepted.

Final exam: 20th August 2022, 9:00-13:00

The final exam will be comprehensive in nature and will cover the whole course. Only non-programmable calculators (without alpha storage capabilities) will be permitted for use during examinations. Translation dictionaries are allowed as long as they are in print format and do not contain any handwritten notes. Electronic translation dictionaries are not allowed.

Deferred Final Examination:

Students unable to write a final examination because of illness or other circumstances beyond their control must contact the instructor in writing to request a deferred exam. Permission may be granted when the absence is supported by a medical certificate and or appropriate document/s to support the reason for the deferral. Deferred exams are not granted for students who have made travel arrangements that conflict with the examination schedule.

Drop Course Policy:

The deadline for academic withdrawal is August 16th, 2022.

Policy on Mobile Devices

The use of mobile devices IS NOT PERMITTED in this class. It is disruptive to the instructor and class members. If you carry such a device to class, please make sure it is turned off. If an emergency situation requires you to keep it turned on, please discuss this with your instructor prior to class.

Group Work

The Spratt School of Business encourages group assignments. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, followership and other group skills. Group assignments are also an effective way to learn integrative skills for putting together a complex task. Your professor may assign one or more group tasks, assignments, or projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

Peer Evaluation for Group Work

To deter social loafing and ensure fairness in grading, you will be asked to assess the contribution of your fellow group members. This information will be used when assigning the grade for the group project. The procedure is as follows: Each student should take 100 points and allocate those points to the various members of the group (including him or herself) to reflect the contributions made by each member. For instance, if there are four members in a group and everyone contributed equally, each individual would receive 25 points. Conversely, if an individual contributed relatively little, the remaining group members might allocate few points to that member. To ensure that these peer evaluation scores are reasonable and free from personal bias, you will be asked to provide a detailed written explanation for your point allocation.

Note: You do not have to submit the peer evaluation if everyone contributes equally
