Course Description:

A foundation course that aims to introduce the fundamental concepts of income tax laws and regulations as significant elements in the planning and decision-making process of taxpayers and managers. Problems, issues and planning associated with the Income Tax Act are discussed.

Course Learning Objectives:

Accountants cannot make intelligent business decisions without first considering the tax implications of the choices. An understanding of Canadian taxation is therefore necessary in order to make those decisions.

This course is an introduction to tax principles and practice and is designed to achieve the following objectives:

- 1) To explain the theoretical concepts behind the specific provisions of the law,
- 2) To apply the law in practical problems and case settings,
- 3) To interpret the law, taking into account the specific wording of the provisions, judicial decisions and the Canada Revenue Agency's (CRA) position, and
- 4) To introduce basic tax planning concepts through case application

This course introduces fundamental principles, personal and corporate income tax, and specialized topics (e.g. GST/HST).

Course Prerequisites:

BUSI 1001 or BUSI 1004 (with a grade of C- or higher)

Precludes additional credit for: BUSI 3005 – Taxation I and BUSI 4005 – Taxation II

Drop Course Policy:

The deadline for academic withdrawal is the last day of classes (each term).

Methods of Evaluation:

Component	Weight
Participation	10%
Assignments (4)	30%
Midterm (optional*)	15%
Final Exam	45% (or 60%*)
Total	100%

Participation:

To encourage students to keep up with the material, each week, students are required to submit via cuLearn a copy of their work from that week's material. This includes:

- 1) notes taken while watching the videos; or,
- 2) attempt of some of the practice problems for that week.

Each week will be marked out of 1 and based on effort. No submission or a poor submission will earn 0 marks. A sub-standard position may be awarded 0.5 marks. An appropriate effort will earn 1 mark. You can earn a maximum of 10% so by extension you can skip / miss two weeks of participation submissions without any penalty to your final grade.

Assignments:

To encourage students to learn together, brainstorm together, and help each other with understanding the course material, assignments must be completed in <u>groups of 2</u>. You will select your own groups. **Assignments must be completed in Excel only.** No handwritten responses will be accepted. The assignments will be submitted on cuLearn and due by midnight on the following dates:

Assignment #	Week Coverage	Due Date	%
1	1, 2, 3	Jun 6	7.5%
2	4, 5	Jun 18	7.5%
3	6, 7	Jul 18	7.5%
4	8, 9, 10	Aug 1	7.5%

Late Assignments:

To ensure fairness for all students, penalties will be applied to late assignments. There is a 24 hour grace period after each assignment and participation exercise deadline in-case of emergencies. If you are unable to complete the assignment or participation exercise by the

deadline due to something that comes up last minute, you may submit within the 24 hour grace period and no penalty will be applied. This is only applicable for the assignments and weekly participation exercises.

Once the 24 hour grace period has expired, assignments will be accepted for an additional 24 hours at which time a penalty of twenty (20%) will be applied. For example, an assignment that would normally merit a grade of 80% would receive a grade of 80% if submitted within 0 to 24 hours of the deadline or 60% if submitted between 24 and 48 hours of the deadline. Assignments will not be accepted at all after 48 hours and a grade of 0% will be awarded. Participation exercises will not be accepted after the 24 hour grace period.

Given the fact assignments are open and able to be worked on for weeks up until the deadline, <u>no requests for extension will be considered</u> - this means don't wait until the last minute to attempt or submit the assignment.

Midterm & Final Exam:

The midterm and final exam will test both the technical and conceptual aspects of the course. All assigned readings from the textbook/cuLearn and material presented in the video lectures are examinable. The Tax Appendix for 2020 (provided on cuLearn) should be used alongside the midterm and final examination. Please print it out and have it beside you as you work through these assessments.

The <u>midterm</u> will be held online on <u>Wednesday June 23, 2021 from 7:00 - 8:30pm EST</u>. The midterm covers chapters 1, 2, 3, 5, 6 and 7 (the first 6 weeks of the term). *The midterm is <u>optional</u>. If you choose to write it your midterm grade will only count in the calculation of your final course grade if it increases your grade. There will be no deferred midterm examination held. If you choose not to (or cannot) write the midterm for any reason, the final exam will be worth 50%.

The <u>final examination</u> will be held online in the regular examination period (August 19 - 25, 2021). The date will be announced by Scheduling and Examination Services. The duration of the exam will be 3 hours. The final examination will cover the whole course. **You need to obtain a minimum of 45% on the final exam to pass this course.**

Marking:

The assignments and exams will be marked by the teaching assistants and the instructor together and follow a rigorous quality control process that reasonably assures that the grade awarded is fair. However, no system is 100% error-free, so it is possible that you may wish to question a grade that has been awarded. In this circumstance, please email the instructor describing the difficulty with your grade. You have seven (7) calendar days from when a grade is posted to contest that grade. Please be sure to email from your Carleton email account.

How to do Well in this Course:

This course covers A LOT of material. Keeping up with the weekly material online and completing the assignments is certainly important, but making sure to prepare many practice problems on your own, using the practice problems provided and exercises in your textbook, is critical if you want to do well in this course. Please post questions in the cuLearn discussion forums if you don't understand something.
