Methods of Evaluation:

Component	Weight
Participation	10%
Assignments	20%
Midterm Exam (2 hours)	30%
Final Exam (3 hours)	40%

Participation:

Students are required to watch all of the posted videos for any given week by Sunday at Midnight in order to earn full participation grades. Participation grades will be calculated and posted at the end of the term.

Assignments:

The assignments can be found on Brightspace. They will be completed either through Brightspace only, or through using Microsoft Excel, and submitted on Brightspace for grading. The assignment schedule, with due dates, will be posted on the course Brightspace page.

Late Assignments:

Sometimes, despite our best efforts, and for good reasons, we can't meet our deadlines. If you need an extension, for up to 24 hours, just email me and let me know - I won't apply any sort of late penalty.

If you don't reach out to me prior to the deadline, or if you don't submit within 24 hours of the original deadline, the assignment won't be accepted and a grade of 0% will be awarded. A reminder that if you have an extended illness, or need to skip an assignment completely, you can do so once without any penalty to your final grade as described in the "Assignments" section above.

Midterm Exam:

The Midterm Exam will cover Weeks 1 to 5 and will be held during Week 6. The date and time will be announced once it's determined by scheduling and examination services. **The Midterm Exam will take place in-person, on-campus, and can be scheduled anytime including Friday evening, Saturday or Sunday.**

The duration of the Midterm Exam is 2 hours. The exam will test both technical and conceptual aspects of the course. The only valid reason for missing the midterm is for medical reasons or death in the family and must be documented with a medical certificate or other supporting documentation. Any other reason (such as travel, etc...) cannot be considered. If valid documentation for missing the midterm is provided, a deferred Midterm Exam may be offered at a date/time scheduled shortly after the regular midterm.

Final Exam:

The Final Exam will cover the entire course and will be held in-person during the regular final examination period (April 15, 2023 to April 27, 2023; Date/Time TBD). The duration of the exam will be 3 hours. The Final Exam will test both technical and conceptual aspects of the course. You must obtain a minimum grade of 40% on the Final Exam to pass this course.

Distance Exam Services:

Distance exam service will assist students in providing arrangements to write their in-person assessment off-campus. This service will be leveraging CoMaS, our automated e-Proctoring software, to ensure the integrity of the test/exam process for all students applying for distance exam service. This service is available to students who are required to write an in-person exam but are studying remotely, or traveling as part of their athletic program. Students must be at least 160 km away from Carleton on exam day in order to apply to write at a distance. An administration fee

of \$92.00 for students writing in Canada, and \$165.00 for students writing internationally will be applied per assessment to your student account at the end of the term. Additional fees may be included when proctoring services at a testing centre are required. Students writing internationally who use the e-Proctoring solution; CoMaS, for their distance exam will pay the domestic administrative fee for the service. Students must apply on or before January 25, 2023. For more information, and to apply for this service, please see: <https://carleton.ca/ses/distance-exams/>.

Deferred Final Exam:

If you need to defer the final exam, see instructions here <https://carleton.ca/registrar/deferral/>. Access to course content will be removed after the regular final exam has been completed, whether or not you have deferred your final exam. A deferred exam is designed to provide an alternate date to write the exam, not to provide an extra month of study time over and above what your peers had to prepare for their exam.

Marking:

The assignments and exams will be marked by the teaching assistants and the instructor together and follow a rigorous quality control process that reasonably assures that the grade awarded is fair. However, no system is 100% error-free, so it is possible that you may wish to question a grade that has been awarded. In this circumstance, please email the instructor describing the difficulty with your grade. You have seven (7) calendar days from when a grade is posted to contest that grade. Please be sure to email from your Carleton email account.

How to do well in this Course:

To perform well in this course, you must spend time answering extra problems and checking the answers to test your understanding. To maximize your learning, you should make an honest attempt at the question before looking at the solution. Simply reading a question and then turning to the solution right away is next to useless. You will find that there is likely to be a direct correlation between the number of problems you prepare, your attendance in class and your course grade.

Process: If an alleged violation occurs, all relevant documentation will be forwarded to the Dean. If the allegation proves true, the penalties may include; a grade of Failure on the submitted work and/or course; academic probation; a refusal of permission to continue or to register in a specific degree program; suspension from full-time studies; suspension from all studies at Carleton; expulsion from Carleton, amongst others. **For a first offence, at a minimum, the penalty assigned will normally be a zero on the submitted work and at least a minimum full grade reduction of the final course grade. For a second offence, at a minimum, the penalty assigned will normally lead to a suspension from studies.**
