## 2.0 PREREQUISITES

BUSI 2001 (with a grade of C- or better)

**The Sprott School of Business enforces all prerequisites.**

Precludes additional credit for BUSI 2005.

**This course is a prerequisite to**  
BUSI 4005 (with a grade of C- or higher)

### **3.0 COURSE DESCRIPTION**

Federal income tax laws and regulations and their impact on an individual's financial and business decisions. Problems, issues and planning associated with the Income Tax Act and concerned with the computation of taxable income and taxes payable by an individual are discussed.

### **4.0 COURSE OBJECTIVES**

Accountants cannot make intelligent business decisions without first considering the tax implications of the choices. An understanding of Canadian taxation is therefore necessary in order to make those decisions.

In the Sprott B.Com. program, BUSI3005 is the first of two introductory courses (with BUSI4005) on income tax law, which are designed to achieve the following objectives:

- (1) to explain the theoretical concepts behind the specific provisions of the law,
- (2) to apply the law in practical problems and case settings,
- (3) to interpret the law, taking into account the specific wording of the provisions, judicial decisions and the Canada Revenue Agency's (CRA) position, and
- (4) to introduce basic tax planning concepts through cases application.

This taxation course is an introduction to tax principles and practices. The focus of BUSI3005 (Taxation I) is on fundamental principles and personal income tax. The focus of BUSI4005 (Taxation II) is on corporate income tax and some specialized topics. A third course, ACCT5123 (Advanced Taxation), is part of the Sprott Master in Accounting program for CPA candidates.

Specific learning outcomes are included in a note in cuLearn.

### **5.0 METHOD OF INSTRUCTION**

The format of the course consists generally of one 170-minute class meetings per week. Due to time constraints not all chapter material will be covered in class. Students are responsible for the entire content of each chapter of the textbook as well as all additional topics discussed in class, except for those areas specifically excluded by the instructor.

Class sessions entail a mixture of lecture, case study, problem analysis, and class discussion. The content of any lecture presumes and expects you have carefully studied the assigned reading. Lectures emphasizes major topics and readings, yet you are responsible for all assigned materials. It requires active learning, which means that the student must take responsibility for the learning that takes place. You must do the cases and readings assigned and be prepared for each class. You are encouraged to ask questions and to stimulate discussion on topics that you have difficulty understanding.

## 6.0 GRADING SCHEME

Your grade for the course will depend on both individual work and group work outside of the class, and classroom contributions, as outlined below:

Individual Class Participation	10	(see section 6.1)
Assignments	40	(see section 6.2)
Final Exam (three hours)	* 50	(see section 6.3)
TOTAL	** 100	

\* **To pass the course, students must obtain at least 45% on the final examination in addition to other requirements.**

### \*\* Satisfactory In-term Performance

- 1) The requirement for Satisfactory In-term Performance is set at 50% of all, not each, pre-final term work (i.e. assignments, participation marks, quizzes, etc.).
- 2) Unsatisfactory In-term Performance in this course will lead to Failure in this course (regardless of the performance at the Final exam)  
FND (Failure, no deferral) grade in this course (in case of missed Final exam)

The grading scale used to calculate your final grade will be the one listed in the Carleton University Graduate Calendar:

A+	90 - 100	B+	77 - 79	C+	67 - 69	D+	57 - 59
A	85 - 89	B	73 - 76	C	63 - 65	D	53 - 56
A-	80 - 84	B-	70 - 72	C-	60 - 62	D-	50 - 52
F	below 50						

WDN = Withdrawn from the course

ABS = Student absent from the final exam

DEF = Deferred

FND = (Failed, no Deferred)  
Student could not pass the course even with 100% on final exam

In this course, the Deferred exam for BUSI3005 Fall 2015 term will be scheduled during the same time as the Final exam for BUSI3005 Winter 2016 term (date to be determined).

All final grades are subject to the Dean's approval.

## 6.1 Individual Class Participation:

The intent is to have a very interactive class. Students are expected to contribute to class discussions on a constructive and regular basis. Much of your learning will occur during class and cases discussions. Points will be awarded for contributions to the class. Class participation points are not awarded exclusively for "good" answers to questions. Contributions to the class also include asking thoughtful questions, helping to understand complicated ideas, suggesting reasonable alternatives, and being willing to try out new ideas. Individuals may also be asked to present from time to time as part of the individual participation component. Participation also includes occasional announced and unannounced quizzes.

Each student is expected to prepare cases before each class. A listing of cases is provided on the course website. Self-study problems in the textbook will also provide the student with the opportunity to practice the course material.

Students' working papers will attest the attempts made by the student to learn the concepts and solve the cases. Points may be awarded for preparation of cases. If deemed necessary by the instructor, as announced in CuLearn students should bring their working papers because the instructor could ask them to examine the work done from time to time.

## 6.2 Assignments:

The assignments include problems and cases. They may be completed individually or in groups of two or three (in the same section). If completed in groups, only one assignment per group should be handed in. The cover page (see model on the course website) must indicate a statement signed by each student, indicating that each group member has contributed to the assignment and has respected plagiarism rules. The content of each assignment will be posted on the course website.

Hand-in Assignment at the beginning of each class to the instructor. If it is not handed-in before the due date, it will be considered late and subject to a 100% PENALTY.

**NO LATE ASSIGNMENTS WILL BE ACCEPTED.  
MAKE-UP ASSIGNMENTS ARE NOT PROVIDED.**

Students must always retain a hard copy of all work that is submitted. The time limit for revision of the assignments is equal to 2 weeks after the date of return.

The suggested solutions will be made available so that students can check their own solutions and thereby determine their understanding of the material. The instructor should be consulted if the student has difficulty in understanding the suggested solution.

Graded assignments involve both technical aspects and judgment aspects. Consequently, the grading of these cases and problems has both objective and subjective components. The course instructor is committed to providing you with adequate feedback on subjective components of your grades. Additional feedback from your instructor is always available through consultations during scheduled office hours or by arrangement.

For interested students, it is possible to replace the marks of some assignments with the mark on the production of a paper in a competition on a tax subject. However, a written agreement should take place between students and the instructor in the first two weeks of the class. A strong commitment is required. The substitution will add to students workload. The grade on the research assignment will replace the assignments.

### 6.3 Final Exam:

A three-hour Final Exam will be scheduled during the period December 9-21, 2015. Final date, time and place to be announced. No exceptions will be made for students with conflicting travel plans during the exam time. Material covered during the entire term is subject to be on the final examination.

No books or papers shall be permitted in the examination room. A Tax Appendix with various information will be provided by the instructor as part of the final exam.

## 7.0 EXAM POLICY

University Policy will be strictly adhered to.

Note: Supplemental and grade raising exams are not available in this course.

The only acceptable reason for missing the exam is illness supported by a medical certificate. Please note that there is a formal university policy that governs the administration of deferred exams.

## 8.0 OFFICE HOURS

Instructors office hours (without and with appointment) will be announced in class and posted on the course website. A note will also be posted beside Instructor office door.

Teaching assistants may be available for consultation depending on budget allocation. Days, times and location will be announced in class by the instructor and posted to the course website, if any.

## 10.0 CONDUCT

Professional conduct is built upon the idea of mutual respect. Such conduct entails (but is not necessarily limited to):

- *Attending the class.*

Each class benefits from the attendance and participation of all students. Your grade for participation will be affected by absences. Regular class attendance is important and required. I expect you to attend class and contribute to a quality discussion. Class and team discussion of the materials (e.g., readings, assignments, and cases) are an important part of the learning process. If circumstances prevent attendance at a class meeting, please remember that you are responsible for all materials discussed, handouts distributed, assignments covered, and announcements made.
- *Arriving on time.*

Late arrivals are disruptive to both lectures and class discussion, and show disrespect to those who are on time.
- *Minimizing disruptions.*

You should not leave and re-enter the class. You should avoid engaging in side conversations after class has begun.
- *Focusing on the class.*

While you may take notes on laptops, do not use laptop computers or hand-held devices for other tasks while in class. Activities such as net surfing, and answering email are very impolite and disruptive both to neighbors and the class.
- *Being prepared for class.*

You should be ready to discuss any assigned readings and to answer any assigned questions for each day's class, including being ready to open a case assigned for that day.
- *Respect.*

You should act respectfully toward all class participants. Class participation grading reflects student adherence to these principles; students gain credit for contributing valuable insights and students lose credit if they fail to adhere to any of the above guidelines.
- *Cellular phones.*

The use of cellular phones IS NOT PERMITTED in this class. It is disruptive to the instructor and class members. If you carry a phone to class, please make sure it is turned off. If an emergency situation requires you to keep your cell phone turned on you may wish to keep the silent mode on, please discuss this with the instructor prior to the class starting.

## 11.0 STUDENT PREPARATION

### 11.1 Background reading

Each course module contains readings about tax concepts and issues. The content of any lecture presumes and expects you have carefully studied the assigned reading.

### 11.2 Homework cases and problems

Students learn technical tax materials best when they have to apply them, rather than listening to lectures. So, you should expect to solve problems every week. Some of the cases and problems are for self-study; solutions are provided. Some of the cases and problems will be important preparation for the class discussions (which affect your individual participation points). You can't expect to become a professional athlete only by watching sports on TV. It's the same thing with tax.

### 11.3 Aids to help you answer the questions raised by the cases and problems

These aids may take many forms depending on requests in CuLearn discussion forum. It could be a list of hints to help you get started or progress. Sometimes, there will be supplemental readings. Other times, the aids will direct you to one of the campus or local libraries to use computer databases or other reference materials to find the information you need to help you solve the cases or problems.

### 11.4 Suggested approach

You could look at your study habits with the following questions.

- Have you got an overview of the chapter before the lecture?
- Have you read the slides before the lecture?
- Have you prepared cases before the lecture?
- Have you prepared your questions before attending classes?
- Have you attended class as an active learner and participant?
- Have you prepared for class as per your instructor directives?
- Have you read the chapter?
- Have you tried to solve the recommended problems/cases?
- Have you compared your personal solutions with the solutions?
- Have you tried to understand the materials by discussing it with colleagues?
- Have you tried to ask your question by sending a question on Discussion forum (CuLearn)?
- Have you consult your instructor with your problems?
- Have you consulted TA's with your problems, if any?

## 12.0 ACADEMIC INTEGRITY

Ethics and values are very important in accounting and the world of business, non-profit and government organizations. We will consider ethical issues in accounting throughout this course. Ethics and values are also important in education. Instructors will assume, unless there is evidence to the contrary, that you are an ethical student. To help you fulfill your ethical responsibilities as a student, the ethical standards for this course are listed below.

### 12.1 Graded Group Assignments

All work is to be performed exclusively by the members of the group and all group members must contribute their fair share to each assignment. If outside research is performed, sources are to be cited and information discovered via outside research is to be clearly labeled as such. If outside research is performed, the products of your research are not to be shared with any student who is not a member of the group.

### 12.2 Examinations

All exams must be the exclusive work of the individual student.

### 12.3 Plagiarism

The University's Senate defines plagiarism in the regulations on instructional offences as: "to use and pass off as one's own idea or product work of another without expressly giving credit to another."

### 12.4 Penalty for academic integrity violations

Violations of academic integrity are a serious academic offence. Violations of academic integrity - presenting another's ideas, arguments, words or images as your own, using unauthorized material, misrepresentation, fabricating or misrepresenting research data, unauthorized co-operation or collaboration or completing work for another student - weaken the quality of the degree and will not be tolerated. Penalties may include; a grade of Failure in the submitted work and/or course; academic probation; a refusal of permission to continue or to register in a specific degree program; suspension from full-time studies; suspension from all studies at Carleton; expulsion from Carleton, amongst others. Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy which is available, along with resources for compliance at: <http://www2.carleton.ca/sasc/advisingcentre/academic-integrity>

All academic integrity violations must be reported.

### **13.0 REQUIRED CALCULATOR IN BUSI COURSE EXAMINATIONS**

Only Texas Instruments BA II Plus (including Pro Model), Hewlett Packard HP12C (including Platinum model) and HP10bII, Staples Financial Calculator, Sharp EL-738C & Hewlett Packard 10bII calculators will be permitted in all Business course examinations. Those calculator are available in the campus bookstore and at various other off-campus retail stores.

### **14.0 GROUP WORK**

The Sprott School of Business encourages group assignments in the school for several reasons. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, follower-ship and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. If you have a group assignment, you may find useful the resources at [http://sprott.carleton.ca/academic\\_programs/groupwork.html](http://sprott.carleton.ca/academic_programs/groupwork.html)

Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

### **15.0 SPROTT STUDENT SERVICES**

The Sprott student services office, located in 710 Dunton Tower, offers academic advising, study skills advising, and overall academic success support. If you're having a difficult time with this course or others, or just need some guidance on how to successfully complete your Sprott degree, please drop in any weekday between 8h30 and 16h30. Our advisors are happy to discuss grades, course selection, tutoring, concentrations, and will ensure that you get connected with the resources you need to succeed! See: <http://sprott.carleton.ca/students/undergraduate/support-services/>

### **16.0 MEDICAL CERTIFICATE**

Please note that in all occasions that call for a medical certificate you must use or furnish the information demanded in the standard university form. [http://www.carleton.ca/registrar/forms/Med\\_Cert\\_Carleton\\_University.pdf](http://www.carleton.ca/registrar/forms/Med_Cert_Carleton_University.pdf)

### **17.0 ACADEMIC REGULATIONS, ACCOMMODATIONS, Etc.**

University rules regarding registration, withdrawal, appealing marks, and most anything else you might need to know can be found on the university's website, here: <http://calendar.carleton.ca/undergrad/regulations/academicregulationsoftheuniversity>

## 18.0 REQUESTS FOR ACADEMIC ACCOMMODATIONS

### 18.1 For Students with Disabilities

The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric /mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact the PMC, 613-520-6608 or [pmc@carleton.ca](mailto:pmc@carleton.ca) for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. The deadlines for contacting the Paul Menton Centre regarding accommodation for final exams for the December 2015 exam period is November 6, 2015 and for the April 2016 exam period is March 6, 2016. For PMC information, please refer to <http://www.carleton.ca/pmc/>

### 18.2 For Religious Obligations

Students requesting academic accommodation on the basis of religious observance should make a formal, written request to their instructors for alternate dates and/or means of satisfying academic requirements. Such requests should be made during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist, but no later than two weeks before the compulsory event.

Accommodation is to be worked out directly and on an individual basis between the student and the instructor(s) involved. Instructors will make accommodations in a way that avoids academic disadvantage to the student.

Students or instructors who have questions or want to confirm accommodation eligibility of a religious event or practice may refer to the Equity Services website for a list of holy days and Carleton's Academic Accommodation policies, or may contact an Equity Services Advisor in the Equity Services Department for assistance.

### 18.3 For Pregnancy

Pregnant students requiring academic accommodations are encouraged to contact an Equity Advisor in Equity Services to complete a letter of accommodation. The student must then make an appointment to discuss her needs with the instructor at least two weeks prior to the first academic event in which it is anticipated the accommodation will be required.

## **19.0 EMAILS**

Please read the note Discussion forum and emails on cuLearn.

Note that the Sprott School of Business requires that correspondence with professors be carried out through your Carleton email account only.

For us, to respond to your emails, we need to see your full name, CU ID, and the email must be written from your valid CARLETON address. Therefore, it would be easier to respond to your inquiries if you would send all email from your Carleton account. If you do not have or have yet to activate this account, you may wish to do so by visiting <http://carleton.ca/ccs/students/>

## **20.0 COURSE SHARING WEBSITES**

Student or professor materials created for this course (including presentations and posted notes, labs, case studies, assignments and exams) remain the intellectual property of the author(s). They are intended for personal use and may not be reproduced or redistributed without prior written consent of the author(s)..

## **21.0 CHANGES TO THE SYLLABUS**

A syllabus is a tool to help you plan your time. Every effort is made to make the syllabus as complete as possible, but there may be occasions when changes are required. The instructor will announce any deviations from the syllabus in class and the change will be posted on the course web page.
