Course Description:

Course explores the foundations of Social Analytics, Text Mining and Social Network Analysis. These concepts are explored using the SAS Viya for Learners which students will access through an internet connection. Key concepts will be reinforced through the use of practical assignments using real datasets that have been obfuscated. A portion of each class will be used as a tutorial on using the software, so attendance is strongly recommended.

Reading(s)/Textbook(s)/Required Materials

There will be no textbooks for this course. Technical manuals and assigned readings will be posted on Bright Space. Students are expected to have internet access with a reliable connection. The instructor will send an invitation to each student in the second week of class to access the SAS Viya for Learners platform which will be used for all assignments and group work. It is highly recommended that students familiarize themselves with SAS as much as possible before the assignments are distributed. SAS offers a free e training called Prog 1 that provides an overview of the SAS interfaces and introduces data manipulation techniques that will be used in this course.

Process: If an alleged violation occurs, all relevant documentation will be forwarded to the Dean. If the allegation proves true, the penalties may include; a grade of Failure on the submitted work and/or course; academic probation; a refusal of permission to continue or to register in a specific degree program; suspension from full-time studies; suspension from all studies at Carleton; expulsion from Carleton, amongst others. **For a first offence, at a minimum, the penalty assigned will normally be a zero on the submitted work and at least a minimum full grade reduction of the final course grade. For a second offence, at a minimum, the penalty assigned will normally lead to a suspension from studies.**

Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy which is available, along with resources for compliance at: <https://carleton.ca/registrar/academic-integrity/>.
