Course description & outcomes

BUSI 1001 is the first accounting course in a two-course sequence (with BUSI 1002). This financial accounting course is an integrated introduction to accounting principles and practices. Accounting has often been called "the language of business". This course is designed to help you begin to understand and communicate in this language - something that is important for users of accounting information - not just preparers of it. The course should also help you gain an appreciation for the uses of accounting information and the limitations inherent in accounting information.

In order to pass this course, students should be able to demonstrate ability to:

- a) Understand and prepare financial statements.
- b) Outline the purpose, use, and limitations of accounting measurements and reporting.
- c) Critically analyze and interpret accounting information for decision purposes.

Successful completion of this course will also give you a solid foundation for additional study and careers in business.

Calendar Description

Discussion of the concepts of asset valuation and income measurement underlying the preparations and interpretation of financial statements.

Precludes additional credit for BUSI 1003 and BUSI 1004.

Prerequisites

Second-year standing, or permission of the Sprott School of Business.

This course is a prerequisite to

1. BUSI 1002 (with a grade of D- or higher)
2. BUSI 2005 (with a grade of C- or higher)
3. BUSI 2001 (with a grade of C or higher)

Required Course Materials

You will need a calculator for this course. Any calculator will do.

Grading Scheme

Quizzes	30%
Mid-Term Simulation	5%
Mid-Term	25%
Final Exam – 3 hours	<u>40%</u>
	<u>100%</u>

The **quizzes** will be due on the following dates at midnight as follows:

Quiz #	Chapter Coverage	Due Date
1	1-2	Sep 25
2*	3	Oct 9
3	4	Oct 16
4	5	Oct 21**
5	6	Nov 6
6	7	Nov 13
7	8	Nov 20
8	9	Nov 27
9	10	Dec 4
10	11	Dec 9**

The quizzes consist of answering 5 multiple choice questions (with the exception of Quiz # 2 which will consist of 10 questions) and are to be submitted through Brightspace. *Note that Quiz # 2 is worth double.

You will be allowed two attempts at each quiz. The best of the two attempt grades will count as your quiz grade. The best 8 quizzes count towards your final grade. You have 45 minutes to attempt each quiz (except for Quiz 2 which is 90 minutes). This means you get to “miss” two quizzes and it will not affect your grade. If you miss a quiz, please, do not email me with a request to re-open it. It will be counted as one of your misses. Put these dates in your calendars now!

**Due to University policy, no quizzes are allowed during the period of October 22 - 30, or after December 10. Quiz 4 is due October 21nd and Quiz 10 is due December 9th – both are on a Friday. Make sure to mark your calendars!

The **mid-term simulation** is available on Brightspace and must be completed by Wednesday, October 19th at midnight. The marking will be based on attempt only and on whether you are correctly using Excel when preparing the spreadsheet for the problems (i.e. using separate spreadsheets for each problem, etc...).

The **mid-term examination** will be held on Tuesday, November 1st @ 7:00pm and is 90 minutes in length. The mid-term will cover chapters 1-5. The mid-term examination is optional. If you chose to write it, your mid-term grade will only count in the calculation of your final course grade if it increases your grade. There will be no deferred mid-term

examination held. If you chose (or cannot) write the midterm, the final exam will be worth 65% of your grade.

Example 1: you choose to write the mid-term and obtain a grade of 60% on the mid-term. Your quiz grade is 75% and your final exam grade is 70%. Your final course grade will be calculated as the greater of:

$$(75 \times 35\% \text{ Assignments}) + (60 \times 25\% \text{ Mid-Term}) + (70 \times 40\% \text{ Final}) = 69\%$$

$$(75 \times 35\% \text{ Assignments}) + (70 \times 65\% \text{ Final}) = 72\%$$

Your final grade would be 72%

Example 2: you choose to write the mid-term and obtain a grade of 80% on the mid-term. Your quiz grade is 75% and your final exam grade is 70%. Your final course grade will be calculated as the greater of:

$$(75 \times 35\% \text{ Assignments}) + (80 \times 25\% \text{ Mid-Term}) + (70 \times 40\% \text{ Final}) = 74\%$$

$$(75 \times 35\% \text{ Assignments}) + (70 \times 65\% \text{ Final}) = 72\%$$

Your final grade would be 74%

Example 1: you do not write the mid-term. Your quiz grade is 75% and your final exam grade is 70%. Your final course grade will be calculated as follows:

$$(75 \times 35\% \text{ Assignments}) + (70 \times 65\% \text{ Final}) = 72\%$$

The **final examination** will be held in the regular examination period (Dec 10-22). The duration of the exam will be 3 hours. The final examination will cover the whole course. You need to obtain a minimum grade of 40% on the final exam to pass this course.

The mid-term and final exams will be marked by the teaching assistants and myself. We follow a rigorous quality control process that reasonably assures that the grade awarded on your mid-term is fair. However, no system is 100% error-free, so it is possible that you may wish to call into question a grade that has been awarded. If this happens, contact the TA and we will look into it.

Student's Responsibilities with regards to deadlines

It is your responsibility to ensure that you meet (1) the quiz deadlines above, (2) the mid-term date and time (if you choose to write the mid-term), and (3) the final exam date and time. It's as easy as entering these in your calendar on your smart phone or paper agenda. If you send me an e-mail asking me for any sort of accommodation on any of the above, I will reply in the negative. Also, please think twice about starting a quiz attempt. If you start an attempt on the incorrect quiz, I will not be able to reset the quiz for you – the attempt will count as one of your two attempts.

When you register for this course, you are doing so on the assumption that you are fully available during the mid-term on November 2nd (unless you choose to not write it) and final exam period that runs from December. I will not accommodate any requests to write the mid-term or final exam early or late.

The 'Slides and Instructions' Files

These documents located in Brightspace provide you with the road map to the course:

- the first page of the Chapter File provides you with the list of the videos you should be watching and the order in which you should be watching them,
- the remaining pages provide you with a copy of the powerpoint slides and in-class problems that are taken up in the videos

All you literally need to do is to print the chapter files out and follow along.

How to do well in this course:

WATCH ALL VIDEOS, AND PRACTICE, PRACTICE, PRACTICE...

To perform well in this course, you must spend time answering extra problems and checking the answers to test your understanding. To maximize your learning, you should make an honest attempt at the question before peeking at the solution. Simply reading a question and then turning to the solution right away is next to useless. You will find that there is likely to be a direct correlation between the number of problems you prepare, your diligence in keeping up with the course content and your course grade.

You are provided with detailed solutions to all of the problems in the textbook. In addition, some of the problems are identified with a video icon (). These problems are accompanied with a video that takes up the problem in detail.

Teaching Assistants and Support

Teaching assistants are available to support you throughout this course. They will answer any questions posted to the Discussion Forums in a timely manner.

Videos

If you encounter technical issues watching the videos, usually the solution is to try to view them using a different browser. If this does not work, send an e-mail to capture@carleton.ca. Make sure you specify which course you are registered and which specific video is giving you trouble.

FINAL THOUGHTS

For many students, this course is a difficult one. Part of this difficulty stems from a challenging subject matter, but the biggest difficulty comes from failing to devote enough effort to working with the material. Like calculus and other courses where no two problems look alike, financial accounting requires that you practice working with it—over and over and over.

These observations have a number of implications for you and I. First, you will have to spend many hours during, and after watching the videos working on the course. This course contains lots of new vocabulary and concepts, so don't be afraid to ask the TA's for clarification or examples. After watching the videos, you should review both your notes and the suggested solutions to the assigned problems to improve your understanding. It is absolutely essential that you keep up with the assigned reading and end-of-chapter problems.

In exchange for your hard work, you can expect the same from me. For example, expect the TA and I to enthusiastically answer any and all of your questions. Expect us to provide timely feedback on how well you are understanding the material.

In past years, many students struggled in this course mainly because they underestimated the time and commitment required to be successful. This is an elective course for most students so when times get tough, for example when term work and exams start piling up for your major courses of study, BUSI 1001 takes a back seat often resulting in poor marks.

To be successful in this course, you need to answer yes to the following questions:

- Am I interested in business and accounting?
- Can I devote 5-7 hours consistently every week to this course?

If your answer is NO to either of the questions, you should seriously rethink your decision to take BUSI 1001.

Ensure you watch the *Introductory Video* to the course before you do anything else. This video will go over the course outline and provide you with tips to allow you to be successful in this course.
