COURSE DESCRIPTION

Welcome to BUSI 4995!

This is the final course in the four-year career development program, specifically designed for the Sprott School of Business undergraduate students.

In this final Employability Passport (EP) course, you will identify, reflect on and articulate the skills you have built in the EP courses. As the EP complements the academic knowledge and skills you have gained throughout your undergraduate program, you will have the opportunity to bring together and highlight your skills, as they relate to your career development, to an external audience. This course will also draw on your skill-set built in participating in all eight badges and challenge you to reflect on and merge these skills in a direction best suited for your professional goals, post-graduation.

This course will focus on using experiential learning to further develop career ready skills. You will participate in various activities outside the classroom to help you build on the skills you developed in years 1, 2 and 3 of the passport.

The Employability Passport is a set of non-credit courses. These courses do not accrue a fee and can be taken independently or subsequently with other courses.
