Managing the Arts

Challenges of managing arts organizations with emphasis on the changing environment of arts consumption and funding. Tensions arising from blending artistic and aesthetic dimensions with functional considerations when judging organizational and personal issues form a continuing theme.

Course Description:

Management of the arts is one of the fastest-growing fields today. It also belongs among the most fascinating, rewarding, complex, exciting and challenging fields. The need for skilled and knowledgeable arts managers has never been greater. This course will deal with the special skills required to manage an arts organization today and in the future. It will reinforce the need for exceptional business skills and then explore the vast array of additional areas required to successfully manage arts organizations.

Skilled and dynamic cultural leaders and arts administrators, already something of a rarity, will be in enormous demand in the coming years. With a rapid expansion of the arts, we will need those people who are guiding our artistic institutions to be trained at the highest possible level to be adaptable, versatile and creative in order to deal with the quickly-changing and volatile arts and cultural landscape.

This course deals with both practical and theoretical approaches to the vitally important challenges of developing and managing a successful, healthy and sustainable cultural organization.

The onset of the COVID-19 pandemic has had a major and devastating impact on the arts world. This will be discussed in detail but, despite the likelihood of long-term impacts, the major principles of arts management remain the same as they were pre-pandemic.

Managing the Arts will focus on creating and enhancing the strategic and analytical thinking required for success in fundraising, sponsorship, outreach, promotion, awareness and attendance. As well, attention will be given to advocacy, and augmenting the involvement of the private and public sectors.

Six distinguished guest speakers, all leaders in the arts in Canada with strong arts and business expertise, will join the class for short virtual presentations and discussions at different points.

This course is being offered virtually, but there will be weekly opportunities for live discussion.

Course Learning Objectives:

The major objective of this course is to understand the unique challenges of the arts world, providing participants with a tremendous array of both theoretical and practical knowledge, and building heightened critical and analytical thinking in order to respond to these challenges. Participants will gain an understanding of all of the internal and external challenges of the arts environment; organizational structures (including those legally required); best practices in governance including recruitment; strategic analysis and risk management; financial management from an arts perspective; human resource management (from both a staffing and a volunteer perspective); the many approaches to media and marketing; development and fundraising (including donations, private foundations, special events, sponsorship, advertising and government grants); arts leadership; understanding the Canadian arts environment and its differences with the United States and Europe; and building links with the community.

As well as preparing participants for the management of non-governmental organizations, government agencies, government arts presenters, arts venues and cultural museums, arts umbrella agencies and arts networks, this course will provide insight to those who wish to bring a greater understanding of the arts and the inherent benefits of the arts to a career in the private sector.

This course will prepare students to lead the way in an arts world that has seen major upheavals and a dramatic shift in direction.

Course Prerequisites: No prerequisites.

Required Materials: Readings will be drawn from periodicals, arts journals, arts blogs and the regular media. Readings will be assigned weekly. All articles and links will be posted on Brightspace

Final Exam Date: Take Home. Due December 23, 2021

Drop Course Policy: The deadline for academic withdrawal is the last day of classes (each term).

Grading Scheme:

Two in-class assignments: (September 27, November 8)	10%
Four short assignments (Due September 18, October 6, October 20, November 10,)	20%
Mid-term assignment: (Due November 5)	10%
Major Paper or Project (Due December 9)	30%
Take Home Final Exam (Due December 23)	30%
TOTAL	100%

Each component of your grade will be assigned a percentage score. Your final course grade will be a weighted average of each of these components.

- In-class assignments and short assignments: These will be graded based on comprehension of the topics discussed in class.
- Mid-term assignment: This will be a short analysis of an existing arts organization. Evaluation will be based on the students' understanding of the issue facing the organization and an analysis that reflects and understanding of the issues and organization components discussed in class.
- Contribution to Class Discussion: Students are expected to participate in class discussion, however this will not be reflected in their grades.
- Major Paper or Project: This will be an in-depth analysis of an existing arts organization, or the creation of an imaginary arts organization with an in-depth description. Evaluation will be based on the assignment reflecting a thorough understanding of all of the issues discussed in class.
- Take Home Final Exam: This will be a combination of definitions and essays divided into seven sections and will evaluate the understanding of terms and concepts.

Late Assignments:

To ensure fairness for all students, penalties will be applied to late assignments: Failure to submit an assignment on time will result in an initial penalty of five (5) percentage points, followed by an additional

(2) percentage points per day thereafter. For example, an assignment that would normally merit a grade of 80% would receive a grade of 75% if submitted after the deadline on the due date, 73% if submitted the following day, and so on. Requests for extension will be considered in cases of illness, family emergency, or other exceptional circumstances.

Preparation and Participation:

When requested, students are expected to familiarize themselves with terms and concepts in advance of the lectures. Readings will be assigned in advance for certain weeks. All lectures will be available for viewing afterwards.

Group Work:

The Sprott School of Business encourages group assignments. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, followership and other group skills. Group assignments are also an effective way to learn integrative skills for putting together a complex task. Your professor may assign one or more group tasks, assignments, or projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

Peer Evaluation for Group Work

To deter social loafing and ensure fairness in grading, you will be asked to assess the contribution of your fellow group members. This information will be used when assigning the grade for the final project. The procedure is as follows: Each student should take 100 points and allocate those points to the various members of the group (including him/her/themself) to reflect the contributions made by each member. For instance, if there are four members in a group and everyone contributed equally, each individual would receive 25 points. Conversely, if an individual contributed relatively little, the remaining group members might allocate few points to that member. To ensure that these peer evaluation scores are reasonable and free from personal bias, you will be asked to provide a detailed written explanation for your point allocation.

Letter Grades:

In accordance with the Carleton University Undergraduate Calendar (p 34), the letter grades assigned in this course will have the following percentage equivalents:

A+ = 90-100	B+ = 77-79	C+ = 67-69	D+ = 57-59	F = Below 50
A = 85-89	B = 73-76	C = 63-66	D = 53-56
