Course calendar entry from 2023/2024 graduate calendar:

The analytical foundations and tools necessary for successful decision making by investment managers and analysts and by individual investors. Includes a significant hands-on component.

Course Prerequisites:

FINA5502 or FINA5505

Course Description:

The objective of this course is to provide students with the tools necessary to become successful investors or portfolio/money managers. A rigorous quantitative and qualitative analysis of the money and capital markets is offered, with a primary focus on the North American markets. There is a detailed examination of how and where securities are traded and how they are valued, providing insight into how investors appropriately allocate funds across different investment vehicles. This course focuses primarily on an examination of the equity markets in North America. A detailed examination of the trading process and the function of securities markets are presented. This is followed by exposure to the concepts of risk and return, specifically analyzing the role played in security valuation and

in portfolio diversification

Course Evaluation: Each component of your grade will be assigned a percentage score. Your final course grade will be a weighted average of each of these components.

Class Component	Grade weight
Class participation	10%
Quizzes (3@10% each)	30%
Class project	30%
Final Exam (in person)	30%
Total	100%

Preparation and participation

It is expected that the student will watch the recorded videos and read the slides (and assigned readings) <u>before</u> class. Class participation is expected and encouraged.

Quizzes (in person): Quizzes are designed to focus on material that was just covered. They will be approximately 25 minutes in length and will consist of a number of multiple-choice questions. You will write the quizzes on paper in class.

Class project: The course project will cover both the theory and application of topics covered in classes and the readings. The course project is a take-home assignment, it will consist of short essay/problem-type questions. The final project should be submitted via Brightspace no later than October 20 @23:59.

To ensure fairness for all students, penalties will be applied to late project submissions: Failure to submit an assignment on time will result in an initial penalty of five (5) percentage points, followed by an additional (2) percentage points per day thereafter. For example, an assignment that would normally merit a grade of 80% would receive a grade of 75% if submitted after the deadline, 73% if submitted the following day, and so on. Requests for extension will be considered in cases of illness, family emergency, or other exceptional circumstances.

Final exam (in person): You will write the final exam in Brightspace. The date and time of the final exam will be announced through the University's normal procedures for such matters. Be sure that you are available for the final exam. Allowance will not be made for conflicting travel plans.

Drop Course Policy: The deadline for academic withdrawal is October 1.

Group Work:

The Sprott School of Business encourages group assignments. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, followership and other group skills. Group assignments are also an effective way to learn integrative skills for putting together a complex task. Your professor may assign one or more group tasks, assignments, or projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

If peer evaluation will be used as an input when assigning grades to group work, specify the procedure.

See the example below:

Peer Evaluation for Group Work

To deter social loafing and ensure fairness in grading, you will be asked to assess the contribution of your fellow group members. This information will be used when assigning the grade for the final project. The procedure is as follows: Each student should take 100 points and allocate those points to the various members of the group (including him/her/themself) to reflect the contributions made by each member. For instance, if there are four members in a group and everyone contributed equally, each individual would receive 25 points. Conversely, if an individual contributed relatively little, the remaining group members might allocate few points to that member. To ensure that these peer evaluation scores are reasonable and free from personal bias, you will be asked to provide a detailed written explanation for your point allocation.

Letter Grades:

In accordance with the Carleton University Undergraduate Calendar (p. 34), the letter grades assigned in this course will have the following percentage equivalents:

$$A + = 90-100$$
 $B + = 77-79$ $C + = 67-69$ $D + = 57-59$ $F = Below 50$ $A = 85-89$ $B = 73-76$ $C = 63-66$ $D = 53-56$ $A - = 80-84$ $B - = 70-72$ $C - = 60-62$ $D - = 50-52$
