PREREQUISITES

The prerequisite for this course is: **FINA 5502**.

The School of Business enforces all prerequisites.

Calendar Description

Valuation techniques needed for enterprise valuation. The identification of value drivers, insights into the valuation of companies in different settings. Step-by-step procedures for valuing businesses. Includes a team case analysis and presentation.

Course Overview

This course focuses on the theory and practice of corporate valuation. Valuation is used in many settings. It is used for the purpose of investments, mergers and acquisitions and also when companies issue new shares or divest operations. In this course, we will explore the main valuation methods used by professional investors. The course focuses, among others things, on absolute valuation methods, relative valuation methods, developing an appropriate cost of capital, building financial (valuation) models. This practical, hands-on course is taught using formal lectures combined with interactive case studies and exercises to reinforce the concepts covered in class. As part of class preparation and in-class discussion, you will be asked to solve both quantitative and qualitative problems involving valuation of synergies and control premium and to determine the value of both publicly-traded and privately-owned companies. In addition, students will create their own excel-based valuation models which will be used to value a real life company. Through case studies and exercises involving problem solving in different areas of valuation, you will gain practical, hands-on experience of the various valuation techniques and financial modelling.

To stimulate critical thinking and to test your understanding of the material covered in the course you are required to apply the concepts discussed in class to determine the value of a real life company listed on the Toronto Stock Exchange or private firm of your choice. You and your group should select your company during or after the first class and email it to the instructor. The goal of this exercise is to provide you an opportunity to apply the concepts that will be discussed in class to a real company and to evaluate whether the firm is underpriced or overpriced in the marketplace.

Course Objectives

The objective of the course is to provide students with knowledge of

- the various valuation methods;
- what factors drive the value of firms
- how and when to apply valuation techniques, and the practical limitations of the various valuation techniques, the importance of understanding assumptions underlying business valuations;
- how the numerous tools and skills that you have learned in this and other courses are used in an integrated manner in valuing synergies and acquisition targets for the purpose of takeover.
- financial modelling tools to evaluate mergers and acquisitions transactions.

LEARNING OUTCOMES

On successful completion of this course students would be able to:

- identify and describe the various corporate valuation techniques;
- you will learn the advantages and disadvantages of different valuation approaches and understand how and why different valuation methods are used at different times.
- estimate the value of a takeover target;
- identify the challenges that face analyst when valuing firms;
- gain a thorough understanding of discounted cash flow valuation modelling concepts
- perform spreadsheet modelling, including discounted cash flows analysis, enterprise valuations and equity valuations.

Cellular Phones:

The use of cellular phones IS NOT PERMITTED in this class. It is disruptive to the instructor and class members. If you carry a phone to class, please make sure it is turned off. If an emergency situation requires you to keep your cell phone turned on you may wish to keep the silent mode on. Please discuss this with the instructor prior to the class starting.

Drop Course Policy

Students can drop a course up until the END of the second week of classes. Students who drop a class in the third week will receive a WDN but will automatically have the grade changed to ABS. A grade of ABS is considered a failing grade. A required course will have to be taken again. Students with medical reasons and supporting documentation may petition the School to have the ABS grade changed back to WDN.
