Calendar Description:

Aspects of corporate finance of most concern to managers: investment, financing and payout decisions, corporate restructuring. Case studies will be used.

Prerequisite(s): FINA 5501.

Course Description and Objectives:

This course offers a broad overview of finance from the perspective of the financial manager. It focuses on relationship between risk and return, capital budgeting, financing choices faced by the firm, as well as its decisions about capital structure and dividend policy.

This is the second of the two core courses in Finance and the course is designed to meet the needs of a wide array of students; many may not have any interest in choosing Finance as their area of concentration. Thus, the content of this course covers broad but key concepts, principles, and analytical tools that are of interest to anyone who intends to work in business. The course should also help you gain an appreciation for some key areas of financial decision-making and its importance to the success of the enterprise.

Textbook:

Brealey, Myers, Marcus, Maynes, and Mitra, *Fundamentals of Corporate Finance*, McGraw-Hill Ryerson, 7th Canadian Edition., 2020 (older editions of the textbook or other versions of Corporate Finance textbooks will do it as well).

Grading Scheme:

Pre-class group project (due January 19, 2023)	20%
Pre-class quizzes (due January 19, 2023)	20%
Class participation	10%
Group case study presentation (in-class)	15%
Final project (due January 29, 2023)	35%
Total	100%

Course objectives:

Upon completion of this course, students will be expected to have:

- 1. a general understanding of the financing choices faced by the financial manager
- 2. an understanding of the traditional as well as some hybrid securities and corresponding issues
- 3. an understanding of tradeoffs between debt and equity as well as between internal and external financing

Method of instruction:

Class sessions entail a mixture of lectures, cases, problems and class discussion. The content of live classes presumes and expects that you have carefully studied the assigned readings and watched prerecorded lectures. The live class sessions are expected to be interactive and class participation from each one of you is expected and encouraged.

Due to time constraints, not all chapter material will be covered in class. Students are responsible for the entire content of each chapter of the textbook as well as all additional topics discussed in class, except for those areas specifically excluded by the instructor.

Expectations:

The course will require you to both understand the economic intuition of financial concepts and to perform mathematical calculations.

- 1) **Pre-class group project:** There will be a pre-class group project (to be posted on the course Brightspace page in early January). The main purpose of the project is to review material covered in Financial Management (FINA 5501) as it is directly related to the material discussed in this class. The project is **due on January 19@23:59.**
 - Please submit your project via Brightspace project submission link. <u>Late submissions will not be accepted and will receive a grade of zero</u>. Group projects to be done in **groups of 4 students** (you can select your own group for this assignment).
- 2) **Quizzes:** Quizzes are designed to focus on material that is covered in pre-recorded lectures. Each of the **4 quizzes** will be approximately **20-30 minutes** in length and will consist of a number of multiple-choice and calculated questions. The quizzes will become available in early January in Brightspace. You will have *one* attempt at each quiz. You have to complete all quizzes by **January 19@23:59.** Late submissions will not be accepted and will receive a grade of zero.
- 3) Class participation: you are expected and encouraged to actively participate in class activities.

- 4) **Group presentation:** Each group of 4 people (I will assign the groups myself in order to promote collaboration between students) will be assigned a case to analyze and present. The cases will be posted on Brightspace during the second-day class meeting and the case presentations will take place **later on the same day**.
- 5) **Final project:** The final project will cover both the theory and application of topics covered in classes and the readings. The final project is a take home assignment, it will consist of short essay/problem type questions. The final project should be submitted via Brightspace no later than **January 29 @23:59**.

To ensure fairness for all students, penalties will be applied to late final projects: Failure to submit an assignment on time will result in an initial penalty of five (5) percentage points, followed by an additional (2) percentage points per day thereafter. For example, an assignment that would normally merit a grade of 80% would receive a grade of 75% if submitted after the deadline, 73% if submitted the following day, and so on. Requests for extension will be considered in cases of illness, family emergency, or other exceptional circumstances.

Covid-19 Information:

It is important to remember that COVID is still present in Ottawa. The situation can change at any time and the risks of new variants and outbreaks are very real. There are a number of actions you can take to lower your risk and the risk you pose to those around you including being vaccinated, wearing a mask, staying home when you're sick, washing your hands and maintaining proper respiratory and cough etiquette.

Feeling sick? Remaining vigilant and not attending work or school when sick or with symptoms is critically important. If you feel ill or exhibit COVID-19 symptoms do not come to class or campus. If you feel ill or exhibit symptoms while on campus or in class, please leave campus immediately. In all situations, you must follow Carleton's <u>symptom reporting protocols</u>.

Masks: Carleton has paused the <u>COVID-19 Mask Policy</u>, but continues to strongly recommend masking when indoors, particularly if physical distancing cannot be maintained. It may become necessary to quickly reinstate the mask requirement if pandemic circumstances were to change.

Vaccines: Further, while proof of vaccination is no longer required as of May 1 to attend campus or inperson activity, it may become necessary for the University to bring back proof of vaccination requirements on short notice if the situation and public health advice changes. Students are strongly encouraged to get a full course of vaccination, including booster doses as soon as they are eligible, and submit their booster dose information in <u>cuScreen</u> as soon as possible. Please note that Carleton cannot guarantee that it will be able to offer virtual or hybrid learning options for those who are unable to attend the campus.

All members of the Carleton community are required to follow requirements and guidelines regarding health and safety which may change from time to time.
