Course calendar entry from 2018/2019 graduate calendar:

Managerial and strategic implications of differing international environments for a variety of business functions including structure and control, managing human resources, marketing, finance and logistics. Complexities of working across political and cultural boundaries. Precludes additional credit for BUSI 5300 (no longer offered).

Course Description:

Increasing globalization pressures are creating new challenges and opportunities for firms and managers alike. Firms are under increased demands for greater efficiency, economies of scale, and moving beyond domestic borders. Many business organizations are finding that their survival depend on foreign operations, cross-border partnerships, and a global customer base. As competitive pressures increase, so too do the pressures on managers to deliver results. Caught in the middle of access to raw materials, competitive labour costs, sustainable supply chains, solid strategies and so on, the global manager has to make quick decisions that involve multiple countries, cultures and contexts and implement those decisions across countries, cultures and contexts.

Learning Objectives:

This course is structured around the fundamental problem of international expansion. At the end of this course students should be able to:

1. Understand the relationship between business and its environment
2. Analyze the impact of global business issues on specific management situations
3. Analyze a country's economic, legal, political and cultural environment and identify its suitability for a given company's expansion
4. Formulate business strategies and a management plan that is supportive of corporate goals and compatible with local conditions
5. Identify areas for personal development for a successful global career

Course Restrictions: restricted to MBA students

Course Prerequisites: None

Drop Course Policy:

The deadline for academic withdrawal is the last day of classes (each term).

Required Textbook:

Global Business Today, 5th Canadian edition; Charles W. L. Hill, G. Tomas M. Hult, Thomas McKaig; Canada: McGraw-Hill Ryerson Ltd, 2018. ISBN 978-1259271250.

Additional reading material and weblinks will be posted on cuLearn.

Required readings and cases:

Readings will be made available through the library e-reserve system and cuLearn. Cases are available through Harvard Business Publishing (see link on cuLearn).

Teaching presentations will be posted on CuLearn following classes.

Grading Scheme:

Assignment	% of total
Group project (presentation)	30%
Quiz (individual)	20%
Class preparation and participation (individual)	20%
Individual report	30%
Total	100%

Small teams of students (self-formed groups of 4 students) will choose a product or service of a Canadian company that they wish to market outside Canada, in a country where the company does not already have a presence. At the different stages of the course students will incorporate factors described in the lectures into their international expansion plan. The work is divided into two parts: a group project presentation, and a final individual report. For the group project, the team will work together to choose a company, a product or service and the country in which it will be sold, and collect and analyze information relevant to their international expansion. The final individual report will build from this work and address all required international business aspects. Further instructions will be posted on the course cuLearn.

Group project presentation

The group project presentation will consist of a presentation by the teams of their project and associated international strategy. Each team will describe the international expansion they propose, note any problems they expect to face and propose solutions for dealing with these issues. The presentations will be assessed for their practicality, their exposition of the relevant issues and their use of ideas and concepts from the course, as well as the quality of the presentation. All group members must be actively involved in the development of the project and presentation. Although I do not anticipate such situations, a word of caution about free loaders. The best way to deal with free loaders is to not include their names on the cover page of the group presentations. If a student's name does not appear, the student will be receiving zero for the group project presentation. Further instructions will be posted on the course cuLearn.

Quiz

There will be a quiz, closed books, covering concepts covered during the course. Further instructions will be posted on the course cuLearn. There is no final exam in this course.

Individual report

As mentioned above the ideas around the international project will be developed within the team, but the paper must be authored individually, that is, at the end of the course, each student will write his/her report on the venture selected by the team (therefore same Canadian company, same country to expand into and same mode of entry), covering all concepts covered in class. **Assignments must be uploaded on CuLearn before deadline indicated in the Course Schedule below. No late submissions, hard copies and submissions by emails accepted.** Please ensure that all submissions include name and student number. Further instructions will be posted on the course cuLearn site.

Preparation and participation

Class attendance, preparation and participation are an important part of your grade. This includes arriving on time for all classes, having read all assigned materials, turning in assigned questions on time and being fully prepared to participate in class activities and discussions. You will be required to turn in four case preparation documents on CuLearn. The preparation document consists of short answers to a few questions about assigned cases. The goal of the preparation documents (10%) is to help you think through some important issues prior to class and therefore will not be accepted if you are not attending class. Each missed preparation document represents a 2.5 points drop in the final grade, or 5 points drop if you miss both the preparation document and class. Participation grades will range from 0 to 10 points, depending upon performance, with highest scores reserved for **exemplary contributions**, not simple attendance. Please read the case preparation guidelines for more information on preparing and learning from cases. **Late submissions are not accepted.**

Wireless devices and laptops:

Please bring a wireless device to class (Tablet or laptop). However, the use of wireless devices is only allowed for activities related to the class. Inappropriate use in class will be noted and will affect your grade.

Group work

The Sprott School of Business encourages group assignments in the school for several reasons. They provide you with opportunities to develop and enhance interpersonal, communication, leadership, follower-ship and other group skills. Group assignments are also good for learning integrative skills for putting together a complex task. Your professor may assign one or more group tasks/assignments/projects in this course. Before embarking on a specific problem as a group, it is your responsibility to ensure that the problem is meant to be a group assignment and not an individual one.

In accordance with the Carleton University Undergraduate Calendar (p 34), the letter grades assigned in this course will have the following percentage equivalents:

A+ = 90-100	B+ = 77-79	C+ = 67-69	D+ = 57-59
A = 85-89	B = 73-76	C = 63-66	D = 53-56
