

MANAGEMENT CERTIFICATE FOR WOMEN (MCW)

A Professional Certificate in Management Fundamentals & Skills

This program recognizes that women have different learning and management styles than do their male colleagues, and builds on their particular strengths. This learning is tailored for women in management and responds to their learning styles by addressing personal management skills development. Throughout the program, there is continuous focus on collaboration, team work and clear communication.

Who Should Attend:

- Women in middle and senior management positions from the private, public and non-profit sectors
- Women professionals (e.g. medical, legal, engineering) and scientific specialists who wish to transition into management roles in their organizations
- Women entrepreneurs and tradeswomen building their businesses

Key Benefits for the participant:

- Opportunities to further develop specific management skills
- A foundation for career development and further growth
- A network of interaction and communication with women who share similar career goals.
- An opportunity to address issues women face as managers.

Key Benefits for the organization:

- A structured and integrated program for developing women's management skills
- Builds skills which are immediately applicable in the workplace
- Facilitates the transfer of learning from the classroom to the workplace
